Farmington Savings Approved By FHA To Make Home Improving Loans

The Farmington Savings and Loan Association located at Ten Mile and Orchard Lake Road has been approved to make FHA property improvement loans to home owners. It was disclosed this week. The approval was contained in a letter sent to Frank E. Holtzman, president of the institution, by E. F. Bleyke, Assistant Commissioner of the Federal Housing Administration.

Loans are available to all owners for remodeling, modernizing and repairing homes under this widely-used FHA Title I low cost budget plan.

The money loaned for home improvements under the program is from funds of the Farmington Savings and Loan Association.

An individual, contractor or material supply dealer who wishes to participate in this home improvement program is invited to make application at the office of the institution.

The benefits of this program have been proven over the years. More than 19,000,000 families have obtained FHA loans to improve their properties.

Home owners can borrow up to \$2,500 for periods ranging up to five years. All types of home improvements, such as remodeling, painting and decorating, insulating, plumbing and heating, wiring, cement work, grading and landscaping, etc., which add life and value to the property, are eligible for FHA loans.

The Federal Housing Administration urges all home owners to deal only with reputable, established contractors or building supply dealers. A telephone call to the Chamber of Commerce or Better Business Bureau can quickly establish the reliability of the contractor.

If you need to use an extension cord for thermostatically controlled appliances... that is, an electric coffee maker, fry-pan, waffle iron, toaster and the like... use a heavy-duty extension cord. This is safe practice and one which will insure more efficient operation of the electrical appliance.

Goodwill Aiding Area In Annual Clean-up Drive

Goodwill Industries officials indicated that they will cooperate in every way possible with communities in their annual spring clean-up campaigns as in past years. Officials stated that nearly all types of usable discards will be taken away by them. In giving to Goodwill Industries, officials pointed out, the householder is not only helping himself and the community in the annual spring beautification campaign, but rendering a fine charitable service by providing work for the handicapped people.

Work is provided for otherwise unemployed handicapped people through contributions of these discards. Goodwill Industries workers take these discards, recondition them and sell them in their retail stores.

It is requested that persons cleaning the house and yard separate usable discards from the junk and give the usable discards to Goodwill. All that is necessary for a pickup of these discards at the home is a call to the local Goodwill Industries representative, Goodwill representative for the Farmington area is Miss Lora Ault. Her telephone number is GR 4-4294.

The next regular Goodwill Industries pickup in the Farmington area has been set for Monday, May 13.
