No priority for the purchase of federal electric power should be given to any local governmental agency, in the view of Harold B. Say, of the Portland, Oregon, Chamber of Commerce. He told a House subcommittee that there is no logic in a preference clause which says "those citizens who choose to obtain their power from public utility districts should be favored."

Cotton, Sheers Lead  
In Fabric Picture

In the fabric picture, cotton is really king and sheers step to front and center in chiffons, voiles, georgettes, dimities, lavans, dotted Swiss organdies. Silk, so important for sport, continues with tissue weights the latter developments. Blooms continue to be of major interest with delicate embroidered eyelet novelties in pastel adding another facet to this category. Silk-look cottons and silk-faced mummy cotton merit attention.

Prints play a strong role with bold lush florals a factor. Exotic in effect are summer-colored batik, South African patterned cottons and Tahitian florals.

Inflation note: The Wall Street Journal reports that a company decided to tear down an unused smokestack built in 1921. The original cost of the structure was \$8,240 but it cost \$13,470 to dismantle it.
