New Approach To Recreation Program Taken

A new approach to the recreational needs of Franklin area youth was determined this week by the two committees appointed by the Franklin Community Recreation Society.

Under the leadership of Mrs. H. E. Jones, a group of Senior High School students are planning various recreational projects for the summer. The youth felt that this approach was better than trying a mass approach to the problem.

A similar group of Junior High School students meeting under the leadership of Mr. Jack LeVan came to a similar conclusion. The suggestion of these youths is that other Junior High school students get together in neighborhood groups and that these groups could then meet with Mr. LeVan to plan over-all activities.

Young people interested in taking part in this program can call Mrs. Jones or Mr. LeVan for details. The leaders feel that this direct expression of the young people will probably lead to a more stable program and one that will more effectively meet the needs than would a program planned by and presented by adults.

All music is what awakes from you when you are reminded by the instruments.

THE SIDEWALK banking window at the new Farmington Savings and Loan Association Building on Ten Mile Road just west of Orchard Lake makes it possible for customers to transact all their banking business without ever having to leave their auto. This is but one of the

many convenient banking facilities offered at the new, modern building. A junior savings department inside the building also makes it possible for youngsters to open and draw from their own savings accounts.
