

LITTLE ONES—Pointing up the mutual dependence of large and small businesses in our land, a survey reveals that one of the largest companies depends upon more than 26,000 smaller ones to supply it with goods and services it requires.

Time says that the U.S. is faced with a new kind of labor shortage—not of workers but of skills. Unfilled demands for skilled workers have increased heavily.

A simple epitaph appears on a tomb in Florence, Italy: "Here lies Salvino d'Armati of Florence, the inventor of spectacles. God forgive him his sins. Died in the Year of our Lord 1317." The inscription may be misleading. Marco Polo is recorded to have seen eyeglasses used in 1275 in China, according to Murine Company researchers.
