**Local Y-Teen Girls To Attend YWCA Conference**

Virginia Mastala of 33105 Orchard Lake Road and Carolyn Sue Balman of 32249 Valleyview Drive will be among a group of Officers of Y-Teen clubs in senior high schools in the metropolitan Detroit area attending the annual Cavell Leadership Conference at the YWCA's Camp Cavell on Lake Huron, from August 25-30.

Following the theme, "Y-Teens Grow in Body, Mind and Spirit," conference sessions will offer training to club officers, develop new program ideas and provide an opportunity for girls to meet and have fun with other girls from different parts of the city, YWCA officials indicated.

Discussion leaders will include Dr. Otto Yntema, of Western Michigan College, Kalamazoo, who will talk on the implications of civil rights programs; Mrs. Evelyn Ratcliffe, of Detroit, who will discuss personal grooming; and a panel of speakers representing the Detroit Round Table of Christians and Jews, who will discuss the three major religions.

Workshops, led by YWCA teenage directors, will concentrate on club money raising and budgeting, recruiting and membership, world fellowship and service projects, public affairs, and personal relationships.

Miss Annetta B. Eldridge, YWCA Metropolitan Executive Director, will open the conference Sunday morning with a meditation on "What It Means to be a Y-Teen Member of the YWCA."

In addition to conference sessions, the 116 delegates will have free time for swimming, crafts, hay rides, camp fire sings and treasure hunts.

A few score years ago, when scientifically prepared, ready-to-use eyecrops were not available, the blue-eyed mountain girls of the Southern Appalachians used juice from the Jimweed as an eye application. The juice was thought to enlarge the pupil so that only a thin rim of the blue showed. Today the dictionary defined the weed as being "intensely poisonous." Its use definitely is not recommended, say Murine Company researchers.

**Check your MEDICINE CHEST lately?**

Think a minute... how long has it been since you've "weeded-out" its contents? Remember, some medicines may lose their potency over a period of time. Don't keep prescription "left-overs" around after the need is past. It's wise to consult your doctor before taking any formerly prescribed medicine.

We maintain fresh potent stocks of drugs and pharmaceuticals, keeping many antibiotics, for instance, under constant refrigeration. Call us for our efficient prescription service next time your physician prescribes for you or a member of your family.
