IMBER-TOWN INC. How Much Should A New Home Cost?

afford. In addition to the purchase price, the home buyer must carefully consider how much he can afford in monthly payments to amortize the mortizes. One rule of thumb states that the average couple should budget about 25 per cent of gross monthly income for housing.

Prespective home huvers also

store purchasing a new home.

There is no universal answer, of course, but there are some generally a ccepted guideposts. A common rule in the home financing business is hast the purchase price should not be more than two-and-ahalf times one's annual gross income.

Others say that a course swer, or course, but there are some generally a ce ept et guideposts. A common rule in the home financing business is that the purchase price and shalf times ent's annual gross income.

Others say that a couple should pay just as much as they possibly can for a home—never New Storage

Bins Built

for Farmers

Farmers will do well to get acquainted with a factory-primed hardboard which has high performance record in reconstructed farm building, suggests the Farm Service Burseau. As an ew siding for an old building, this weather-resistance of the bin or building is first lined with the moisture-rests and the other committees of the control of th

or 12 long.

A new home is a long rainwestment; leave as little possible to chance.

A new home is a long rainwestment; leave as little possible to chance.

Every farm needs storage bins. Using these versatile panele to walls or dividers, backed by simple kumber framing, the bins he needs to make his work easier.

Although the tempo slow a bit, Plymouth Twp.

Although the tempo slow as bit, Plymouth Township divided to the control of the

surfaced panel.

Manufactured by an exploded wood process, the new farm board has no grain or knots. Equally exceptional internal strength, strong in all directions, it resists racking and twisting.

Ovster Shells Are Sub for Window Glass

Many materials have been used as a substitute for window glass in the past. One of the oddest of these was oyster shalls

oddest of these was oyster shells.

Back in the 1800s the thin nearly flat shells of a variety of oysters found in Ceylon were widely used in China and other parts of the childran shell of the control of the control

Home Buying

When you buy or build a home, it's a good idea to keep future market-ability in mind. The number of bathrooms, their size, the arrangement of the fixtures, and their location the interest of the fixtures, and their location that it is a supplied to the fixture of the fixtures and installation, and assures the house a good future market. It pays to buy top quality fixtures and installations into first place — you'll get better service and a better service and a better service such such as the first place — you'll get better service and a better service and a
