LADIES STEP FORWARD
Stylyze The Perm!!

JEAN'S RESPONSIBILITY TO YOU - THE PATRON

Permanent waving in the modern concept can be quite stylized with many a new coil having its own perm pattern specifically designed for its particular hair, for the depth of taper, or for the bluntness of line, as well as for the texture and character of the hair. Perm for "Flips" is bleached in panels, with bangs and tupe not permied at all to give "weight" around the style outline in contrast with wave body for the flips which cover crown and sides. Perm for "Flair" has curls wound back on top and at temples for smooth forehead, then turned forward on the sides to establish "flair" for the asymmetrical lines; one side up, one down. The ribbon woven through the front locks is a new feature in hair decor. The Perm for "Flourish" has a pinwheel wind of rods to provide equal body overall, including the crown apex where large loop curls are created. All curls move forward in harmony with the style lines.

MEMO: Hair color was created to make every woman beautiful. It is exciting and changes a woman so dramatically, yet so naturally, you will wonder why Nature didn't think of it.
