

Majority Favor Segregation; Survey Shows

A substantial majority of the white residents of the metropolitan Detroit area favor complete school integration. But one third believe schools should be segregated and an additional tenth maintain Negroes should be taught in separate classrooms.

This is one of the principal findings of a University of Michigan study of residents in the Detroit area regarding attitudes toward current social issues. Conducted by the U-M's Detroit Area Study (DAS), the study's findings were reported earlier this month by DAS director Harry Sharp. A detailed presentation of the findings will be available shortly in the DAS's annual "Social Profile of Detroit."

Sharp said: "Only a very few Detroiters who favor integration refer to the Supreme Court's historic decision in justifying their opinion. Most Detroiters simply state, in one way or another, that they believe discrimination on the basis of race is not justifiable from a moral standpoint."

"About one out of every five whites who favor segregation maintain that separate schools for Negroes and whites is actually desired by Negroes. For example, a young man stated: 'I was born in the South and I know that colored people are happier in their own groups.'"

"Southern migrants," Sharp continued, "are considerably less in favor of integration than are native Detroiters."

Good Breakfast Needed

Many are missing the most important meal of the day remind MSU Marketing Information Mrs. Josephine Sawyer.

Surveys show that 2 out of 9 children leave for school with nothing to eat for breakfast. A good breakfast insures the right spurring of energy and alertness until lunch time.

Tips on Meats

Always use low heat when you cook meat... whether it's the top of the roast or in the oven, say home economics authorities. If it is a roast in the oven... keep that regulator on 325 and depend on a meat thermometer to show when the meat is done.

Use kitchen tongs to turn meat in the skillet so as not to punch any holes and the juice stays in the meat where it belongs. Don't be confused by names... pot roast and Swiss steak are ways of cooking meat... they aren't really cuts of meat.

The site of a fort used by the British during the Revolutionary War has been discovered at Mastie Beach, on Long Island, N. Y.

CHICKEN COOKING

If you plan to broil or barbecue a chicken pick a chicken weighing under three pounds. The larger size fryer will be a meatier choice. If you plan to fry or roast, suggest a 3 1/2 pounder. Market information Agent Mrs. Josephine Sawyer.

Compare fryer prices with other meats at the market. Fryers fit into meat plans at budget prices.

That noise in the chimney isn't caused by an early visit from Santa; it's the crackling of dollar bills as your furnace begins its annual fuel-eating orgy.

Thirteen pieces of a "baker's dozen" originated when King Louis of France warned all bakers who gave under measure that they would be beheaded.
