Turkey Price Makes It A Thrift Buy

Turkey prices are attracting more shoppers to "take the bird home." Supplies for 1957 are a record with the number of turkeys being raised and the carry-in storage stocks both the largest on record.

Retail sales have been very heavy during the past few months, but turkeys in storage keep supplies large, reports the MSU Marketing Information Agent, Mrs. Josephine Lawyer. Smart homemakers will try new ways to use turkey and will keep on the lookout for thrifty turkey-recipes.

Use hot water for the most thorough cleaning of laundry. A cool rinse is satisfactory, but a hot wash—140 to 180 F. does the best job with colors and fabrics that will stand the hot water.

A Few Are Chosen

There are 1,000 tree species in the United States, but only about 180 have commercial value. Many are purely ornamental, others are scrubby weed trees. Most of the commercial lumber comes from about 25 species, both softwoods and hardwoods. The most widely used commercial species is Douglas fir, found along the western slopes of Oregon, Washington and California. Douglas fir is a tall tree whose wood has great structural strength, as well as incomparable beauty of grain and texture.

Use vegetables, gourds, leaves and Indian corn for fall centerpieces. For a touch of green add an evergreen sprig.
