From where I sit ... by Joe Marsh

It's in the Bag

Out-of-towners must have wondered what was going on last Tuesday. Every parking meter was covered by a paper bag lettered "Free Parking."

Tuesday was officially designated "Free Parking Day" by the Town Council as a reward for going a year without a traffic accident.

"Traffic safety, like virtue, is its own reward," said Judge Cunningham as he proposed the motion. "But let's show our drivers we're proud of 'em!"

From where I sit, a little praise never hurts—in fact, that's why I talk in this column about the nice, fair-minded people I meet. Folks who live—and let live—who don't care whether you like beer or buttermilk at dinner time. I say next neighbors never try to "park" their ideas on others!

Throughout recorded history there have always been reports about charlatans who exploited the sick.

We now have laws that protect you by only permitting a physician to practice medicine and a pharmacist to dispense medicines. Unfortunately there is a growing effort to increase the use of patent medicines by permitting their sale anywhere, instead of under the supervision of a pharmacist, who has the necessary training to advise you against wrong use. Any medicine can be harmful if improperly taken.

For your own safety, depend on your physician to advise you what medicine to take and always secure any medicine from a pharmacist.

SECURITY begins with money in the bank

Security is a huge word in our modern vocabulary. We ask it from our government. We try to gift-wrap it for our families. Our children seek it in their first jobs right out of school. We pursue it all of our working lives. But this fact is certain:

FINANCIAL SECURITY STARTS WITH MONEY IN THE BANK. Money you can get your hands on in a hurry. Money for sudden opportunities or emergencies. Money that is safe, convenient, available.

Detroitans have been saving like that for 108 years at The Detroit Bank and Trust Company. Begin with a savings account at any of our 83 locations.
