MICHIGAN BELL

TELEPHONE lines

WINTER always reminds us of the famous picture called "Spirit of Service," showing a telephone line-man walking on snowshoes through a blizzard. It may come as a surprise to the folks who mostly see our men riding by in heated cab trucks, but in many Michigan areas our men still must use snowshoes occasionally to reach lines in open country. And those fellows still get a kick out of it because they know they're making it possible for you to phone anyone, any place, any time.

IF HE COULD LIVE THAT LONG, a fellow could expect to work in Michigan Bell's plant department—building lines, installing and repairing phones, and so on—for about 900 years without an injury that would keep him off his job. That's just another way of saying our company's Safety Report for 1957 shows that only 1 fellow out of 900 didn't show up for work because of an accident. Of course, we'd rather have a record of none out of 900... that's our goal. And that's why our Safety Supervisors keep reminding: "make sure the pole's safe before you climb it"; "lift with your legs, not your backs"; "get out of your car on the sidewalk side—not on the side where you'll step into traffic."

HAVE YOU NOTICED how much cheaper those stars get when you're tired? How many miles do you travel each year up and down stairs—or from one end of the house to the other—to answer the phone? Nowadays this is an unnecessary waste of energy and time. You can have an additional phone anywhere in your home for about one dollar a month. Last year Michigan Bell installed 66,000 telephones in homes which already had at least one phone. Join the families who have discovered how much pleasanter life is with extension phones. To order yours just call our Business Office.

CHILDREN ON SCHOOL-busses will be safer if a bill passed by the Senate becomes law. This would require drivers of automobiles moving in either direction to stop when a school bus stops to load or discharge passengers. It also requires the bus driver to supervise each child across the street.

Motorists can move again when the bus or when the bus driver signals them to proceed.

This bill was introduced by Senator Arthur Dehmel (R-Unionville) and was supported strongly by the Michigan Farm Bureau.
