**Civil Defense Taken Seriously by Russians**

Russia really takes its Civil Defense program serious. This year every Soviet citizen will be required to undergo a 24-hour training course in Civil Defense activities. Prime Minister announced by the Russian C.D. organization is to instruct the

entire population in anti-aircraft, anti-atomic, anti-chemical and anti-bacteriological defense.

Back again after taking a week off. Sure hope you missed me!

August news seems to be all on past vacations. Ethel and Augustin Patrick and their three girls have just gotten back to normal after two weeks of loafing and more. They must know a good boat, which is on Cass Lake.

Bob and Nell Donovan have just returned from a weekend in Chicago. The occasion was a reunion of the 122nd Scouts. The reunion included business meetings and social affairs (mostly social affairs). They went to the beach, where they were there, and saw the catamounts — complete with rattling chains and skeletons.

Gwen and Dave Wrigley have just returned from a trip to Michigan with Gwen's folks. They went through the Upper Peninsula and also saw a lot of lower Michigan.

Mary and Harold Cheitman took two weeks to tour Michigan, too. They spent three days in Ontario and then came back to pick up the two boys and finished their trip.

Betty and Hester Blome have had a house full of company this week. Betty's father visited from Duluth, Minnesota and her brother came to stay from Monroe, Michigan.

Maureen and Morley Godley also had weekend visitors. Maureen's nephew, and his family, spent several days visiting, during the course of their son Terry's Little League tour. Terry's Little League team was in the semifinals and missed the L.L. World Series by only two games.

Jenny and Larry Valliere were guests at Jenny's sister's home in Ontario, and had a nice time. I understand that Barbara and Chick Fritz also were week-ending in Chicago.

It won't be long before the subdivision entrance signs are finished. At present, workers are waiting for the redwood to be put in the ground and they will be all complete.

Elva Bunting called me and she is very interested in getting a bowling group together to bowl regularly next fall. Anyone interested in bowling is asked to call Elva and get all the details about where and when. Her number is GR. 4-2274. The season will begin shortly after Labor Day, and she expected to be able to have all the information about when alleys are available this week.

We had lots of excitement here on the East side of Wildwood Trail last week. Fire engines, police cars, and what have you, it seems that the Edison line was struck by lightning on Ann and Nick Petrucci's lot and the wires started to burn. After the fire department decided they couldn't help the matter, Edison was called and they had the fire all under control in about two minutes.

Jessie Gidday is back in the hospital. She was operated on last Wednesday. She is in very serious condition, and I understand she is in quite a bit of pain. She will probably be there for at least another week, and it would be very nice if she received some cards and notes from Woodbiners. It's New

Mr. Hamilton came to receive his ten year pin at G.M.I. in Flint, Mrs. Thygeson stayed on here for a longer visit with her daughter.

The Smith family returned recently from vacationing at Muller Lake. Peter caught the largest Walleye Pike in the Camp for this season so far. It was almost 5 lbs.

Another Moore Drive vacationer has returned. The Milevich family just returned from Glen Lake in Northern Michigan. Swimming and climbing the sand dunes took up most of their time.

Mr. and Mrs. Michael Hand of Cau Court are home after a trip to the Muskoka Lake region. They motored to Canada via Niagara Falls.

Ronnie Vranesh of Cass Court was away the past week with friends at Ippewash Beach in Canada.

The column is going to be done jointly now so those in Alta Loma 3 can call Mrs. Pell, GR. 4-8679.

Grace Hospital, Room M 536. Dennis Hall and his dad had swell day fishing on Lake Huron last week. The limit on perch is fifty each, and they caught their limit and some half, got hundreds of them. They must know a good spot.

Mary Harris got the thrill of her life last week. Mary, her sisters Kathleen and Patricia, and one Ericson went out to Crahbrook to watch the Lion's football team practice for the All Star game. While they were there, Mary had her picture taken with Bobby Layne, and he even put his arm around her.

Bob Brosch was guest of honor at a surprise party given by his wife, Mary, last Monday night. Bob had been painting all week and when all the guests arrived he was sporting about a five day beard. What a surprise. Among the guests were Barbara and Ernie Cole, and Charlotte and Dexter Van Wicklin. During the two week vacation, the Broschs visited Bob's mother in Traverse City and some neighbors in Upper Michigan.

The Hodges family of Shady-lane have also spent a pleasant vacation. They spent several days with Mr. Hodges' brother in Lake Huron and then stayed at a cottage on Tispico Lake.

We are vacationing too, so I will end this now and its off to the links.

The finger nail test is a good indication of the tenderness of summer squash, but of course you'll want to use it in moderation. Consumer Marketing Information Agents tell us that a summer squash is really tender if you can break the skin by pressing moderately with your thumbnail.
