

Red Cross Safety Director Gives Tips on Boating Safety

Small boat accidents are responsible for some 1,400 water fatalities each year — or more than one-fifth of all annual drownings in this country.

These grim statistics were disclosed recently by Ed Mongeon, Red Cross Director of Safety Education for 16 midwestern states, in a statement giving suggestions for preventing boating accidents.

Mongeon pointed out that there are now 7,100,000 small motor boats on American inland and coastal waterways, with an estimated 35,000,000 devotees of the sport.

He said, "Outboard motor boats are greatly in the majority of small crafts. The great popularity of the sport and resulting accident hazards tend to make it a more and more pleasure cruise into tragedy."

Mongeon listed the following safety rules which can prevent most boating accidents:

1. Stay ashore in bad or threatening weather. Learn to recognize signs of storms so that, when in a boat, you can return in time when bad weather threatens.
 2. Don't "over-power" your boat. Many boats carry the Outboard Boating Club of America plate telling the maximum horsepower the boat's outboard motor should have. If your boat does not have such a plate, consult a reliable marine dealer for the information before buying a new motor.
 3. Don't overload your boat. One adult passenger to a seat is considered a good rule of thumb.
 4. Avoid sudden or excessive bursts of speed.
 5. When in trouble, think — don't panic.
- "Motor boats will float when swamped or capsized," Mongeon pointed out. "Boat owners should look to their boats as they would to their lives. If you mean stay with it."

'Equalization' Important Factor In Any Discussion on Taxation

Major items of conversation in the Farmington area of late have been property re-assessing, annexation and incorporation. The question of taxation invariably crops up whenever they are discussed.

As the talk progresses, that thing called "equalization" usually comes up and to most laymen becomes a major stumbling block.

The phrase "equalization" has become so common in the area that it is simple enough when understood but often complicates discussion on taxes when misunderstood.

First of all, it should be pointed out that equalization factors in this area are used in computing only county, township and school district levies. The levies of a village need not be done on an equalized valuation set by the county or state such as the other taxes although they could. First of all, the City of Farmington are levied on the assessed valuation of property and not on the equalized valuation as many people apparently believe.

"What is this equalization for anyway?" many people ask. Actually, it is for just what the word implies — an attempt to make assessments between various units of government.

Throughout Michigan assessments of real and personal property are made by local governmental units. Assessors vary from city to city and township to township regarding the standards of value they apply to property.

Leaving these locally set valuations alone would mean that those living in a city, township or village where the assessor used a low standard would get by with low taxes. On the other hand, a governmental unit where the assessor used a high standard would have exceptionally high taxes.

To minimize the differences in standards of assessment used in the various governmental units, the equalization board has formulated a plan by which assessments in all communities closer in line with one another. The figures used in this formula are known as the "equalization factors."

Cities or townships where assessments are low will have a high equalization factor. The higher the assessments more in line with what is considered real value will have low factors.

A good example is provided by comparing the City of Farmington with Farmington Township. A complete re-appraisal of property was made in the city the early part of this year and showed that the assessed value of property was increased uniformly and brought more in line with state thinking on assessments.

As a result, the city equalization factor was lowered to 1.03333 less than one percent above the actual assessed valuation (property). In Farmington Township where a complete re-appraisal was still far from completed at the time the equalization factors were set, the equalization factor was set at 1.02337.

Hence, a house valued at \$5,000 in the City of Farmington would have an equalized valuation of only slightly more — approximately \$5,050. In the township, however, a house having the same assessed valuation (\$5,000) would have an equalized valuation of approximately \$5,160.

It is quite apparent from this to see why it is necessary to make clear when talking about taxes whether the rate is levied on local valuation (as in city or village taxes) or equalized valuation (as in school and county taxes).

If you're buying fresh sweet corn look for plump, full kernels. The husks should be dark green and tightly wound at the bottom of the ear. Silks should be dark brown and the stem green at the point where it was broken off the stalk.

LEAGUE OF SUBDIVISION ASSOCIATIONS

NOTES

Neighbors, it will be very helpful if you contact the appropriate committee members for a rate committee. The League is very helpful to the members of their committees since we are financially unable to reproduce and mail 120 copies of Board minutes.

If you have any ideas on activities or projects appropriate to the League, send them to President, Bob Nelson, 2447 Hawberry Road, Farmington, Michigan. The League maintains a "Hopper Box" for proposed activities and projects so that they will not be lost even if they are not able to obtain the assignment given a committee by the Board is a choice of three or four suggestions in writing to the Board at the moment of the "Hopper Box."

Most of the ideas so far have come from the Board and the committees themselves.

For those associations considering a change in delegates, the League Board recommends that the association president be appointed as a two-year-term delegate. Our Assembly of Delegates would indeed be a strong body if it contained a high percentage of current presidents and of past presidents, one well qualified to speak on behalf of member associations and cognizant of the limitations of volunteer organizations. The next regular meeting of the Assembly is September 15.

The next regular meeting of the Assembly is September 15.

There are no direct dues paid to the League. All dues are payable by member associations, and it's often a paying association that supports the League financially as to your association dues. Such support is essential.

There are several League standing committees for which volunteers are available but which lack a chairman. The Board has assigned or these committees but work hardly be started without a chairman.

One such committee is the Literature Committee which has been asked to prepare a general report on the status of the Library, methods, books and privileges, and how the library might be spent. Another is the Planning and Zoning Committee which has been asked to prepare a report on the experience of other communities having a rapid increase in population and the resultant effect on school taxes and half-day sessions.

Another such committee is the Committee on Election Information which has been asked to prepare a job analysis or questionnaire to be submitted to each candidate, the background of each candidate and the dates of incumbent standing record for significant issues and then to prepare a report for mailing to all residents of member subdivisions next February.

Finally, there is the Committee on External Affairs which has been asked to prepare an organization chart for the county government, especially as affecting Farmington Township.

In an effort to keep committees informed of the progress of the League, 20 minutes of League Board meetings are reproduced and a copy

WOMEN DRIVERS Good as Men, Except Parking

Driver license tests analyzed by a study group show that women applicants rate just as high as men — except for one difference. Women have a harder time parking their cars.

The conclusion is one of many reached by experts at New York University's Center for Safety Education after going through 12,000 New York State road tests records.

The survey is part of an overall three year research program launched by the Center to determine what personal traits lead drivers to have auto accidents, to develop better tests for driver licensing and to investigate methods for rehabilitation of chronic traffic accident repeat offenders.

The three year research program has been made possible by a \$50,000 grant to the Center by Shell Oil Company.

Examining the road tests, traffic experts found that those who served or to signal in starting, excessive maneuvering in parking and parking too far from the curb.

Those who passed their tests on the first try also had their faults. These were failures to observe or to signal in starting, excessive maneuvering in parking and parking too far from the curb.

These and other conclusions made during the study are being released by the Center for use by driver, education instructors and prospective driver license applicants.

The safety experts expect to further analyze the road tests records according to age, sex, rural or urban development and other factors.

Protest Street Closings

The City is planning on closing another street.

A few of the reasons given by the residents on Lilac, who want the closing of Lilac Street, are: (1) "We paid for it why should we let everyone use it." (2) "We paid for it why should we let everyone use it." (3) "We paid for it why should we let everyone use it." (4) "We paid for it why should we let everyone use it." (5) "We paid for it why should we let everyone use it." (6) "We paid for it why should we let everyone use it." (7) "We paid for it why should we let everyone use it." (8) "We paid for it why should we let everyone use it." (9) "We paid for it why should we let everyone use it." (10) "We paid for it why should we let everyone use it." (11) "We paid for it why should we let everyone use it." (12) "We paid for it why should we let everyone use it." (13) "We paid for it why should we let everyone use it." (14) "We paid for it why should we let everyone use it." (15) "We paid for it why should we let everyone use it." (16) "We paid for it why should we let everyone use it." (17) "We paid for it why should we let everyone use it." (18) "We paid for it why should we let everyone use it." (19) "We paid for it why should we let everyone use it." (20) "We paid for it why should we let everyone use it." (21) "We paid for it why should we let everyone use it." (22) "We paid for it why should we let everyone use it." (23) "We paid for it why should we let everyone use it." (24) "We paid for it why should we let everyone use it." (25) "We paid for it why should we let everyone use it." (26) "We paid for it why should we let everyone use it." (27) "We paid for it why should we let everyone use it." (28) "We paid for it why should we let everyone use it." (29) "We paid for it why should we let everyone use it." (30) "We paid for it why should we let everyone use it." (31) "We paid for it why should we let everyone use it." (32) "We paid for it why should we let everyone use it." (33) "We paid for it why should we let everyone use it." (34) "We paid for it why should we let everyone use it." (35) "We paid for it why should we let everyone use it." (36) "We paid for it why should we let everyone use it." (37) "We paid for it why should we let everyone use it." (38) "We paid for it why should we let everyone use it." (39) "We paid for it why should we let everyone use it." (40) "We paid for it why should we let everyone use it." (41) "We paid for it why should we let everyone use it." (42) "We paid for it why should we let everyone use it." (43) "We paid for it why should we let everyone use it." (44) "We paid for it why should we let everyone use it." (45) "We paid for it why should we let everyone use it." (46) "We paid for it why should we let everyone use it."
