**Business Men Polled Monthly For Opinions**

Announcement of the appointment of Donald Layland of L. & D. Electric, at 28661 Grand River as chairman of the Farmington Chapter of the national Federation of Independent Business, was made today by Milton King, district manager of the Federation in this area.

Each business member of this organization maintains a voting membership, and is polled by ballot each month on the bills and issues that are independent business enterprise in the nation.

In an effort to do everything possible to maintain the American way of life, and keep our free competitive system of business, the businessmen express their own personal opinion on the ballots each month and turn them over to Mr. Layland, who makes a tabulation of the total number and the manner in which they voted.

This tabulation is sent, with the signed ballots, directly to the desk of Congressman Wm. Bloomfield in Washington. Inasmuch as all this action takes place before Congressmen Bloomfield and other members of Congress are required to vote on these debatable legislative issues that are proposed to become law, it is the only manner in which it is possible for Congressman Bloomfield to know the personal opinions of his independent business constituents in an organized manner.

Corn with most of the silks just turned brown is usually at the peak of its sweetness; if most of the silks are still light green, the kernels will be very milky and tender, but not quite so sweet.
