

# Kendallwood Briefs

MRS. EDWARD COVE GR. 4-0769

The first fall meeting of the class to enable parents to meet teachers and art and music teachers and gym instructors. Thursday, October 2, at 7:30 p.m. at the Dunkle Jr. High School gymnasium.

Mr. and Mrs. Phil Ridenour of Thorny Branch, near Kendallwood, I. and Mrs. John Brink of Kendallwood, R. Kendallwood, I. went to Cleveland, Ohio, last week where they attended the Iron and Steel Engineers Convention. Mrs. Ridenour's mother, Mrs. B. Beatty, flew from Des Moines, Iowa, to stay with her grandchildren, Michael and Sandra, while the Ridenours were away and will be visiting awhile before returning home.

A four year old Nancy Johnson, daughter of Mr. and Mrs. Carl Johnson of Peppermill Rd., is in Detroit Children's Hospital, Sunday, September 21, through Tuesday, September 23, where she is undergoing surgery. Nancy returned to school this week.

The Kendallwood 1 Thursday morning bridge group met at the home of Mrs. Mary Ann Perry, September 23.

The first general meeting of the Woodlake P.T.A. will be Tuesday evening, October 7, at 8:00 p.m. Following a short business meeting, to approve the budget, there will be an open house.

# Clarenceville School News

# Homemakers Make Plans

The Clarenceville Future Homemakers of America held their bi-monthly meeting September 23.

The main topic of discussion was the Regional Banquet to be held at Milford, Ohio, October 15. The following committee has been chosen to plan the banquet: "FHA Goes International". A committee from Clarenceville has been chosen to decorate the stage. It consists of Sandra Gouley, Darlene Hamlin, Margaret Coleman, Karen Gladfelter, Sylvia Jones, Pat Harrington, and Joanne Hanford.

The FHA informal initiation was held October 1, with the initiation banquet being held at the home of Mrs. Mary Ann Perry. The following committee has been chosen for the banquet: Forns, Norma Davis, Pat Harrington, Sylvia Jones, and Doris Pichler. The following committee has been chosen to plan the banquet: Forns, Norma Davis, Pat Harrington, Sylvia Jones, and Doris Pichler.

# Student Council Officers Picked

This year's student council got underway this past week with a business meeting, mainly to elect officers for the year.

The meeting was under the direction of Lois Giguere, student council president who was elected at the end of last year's school term. Newly elected officers are as follows:

Vice-president - Bob Leeds, Secretary - Pat Sullivan, Treasurer - Sandy Croplet, Recorder - Joy Hildaka, and Reporter - Lorraine Reume.

# Pep Club Elects New Officers

At the first Pep Club meeting of the new school year officers were elected.

Selected were: president, Lorraine Reume; vice president, Lois Giguere; secretary, Mary Smith; treasurer, Pat Sullivan; sergeant at arms, Betty Wilson; publicity manager, Virginia Jacobs.

The Pep Club discussed decorations for the Homecoming game, "dance," and "entertainment." It was tentatively decided that floats would be made for the festivities.

Mrs. Elizabeth Geller is Pep Club sponsor.

# Speech Club Reorganized

The CHS Speech Club has been reorganized after a year under a new advisor, Miss Janice Baumgardner.

Several new ideas are going to be put into effect along with the regular meetings. It has been decided to have a dramatics club along with Speech. There are plans for plays to be put on at the assemblies.

On Oct. 16, the club is going to a league school to exchange debate material.

# Say New School Climate Needed

Many classrooms today contain children who cannot possibly benefit from the instruction because of their emotional and social disabilities.

Dr. Norman F. Morrell, professor of psychology at The University of Michigan, says that "By law they are required to be in school. They are captive children and they are not to be taught," he states.

Professor Morrell stresses the need for a change in the particular types of children. It is quite possible that special attention to such needs would give the classroom a new lease on learning.

He points out that the classroom has lost status as the right center for learning. "It has been run down as a place for socialization, an amorphous mass, an irreconcilable range from 'imbeciles' to geniuses, and an operation in a state of confusion. The confusion and the reading of notices. If we are to improve education, we will have to improve the climate for learning."

"We arrange special provisions for the dull, but we ignore the fact that classrooms can become clogged with other pupils who are ready for learning. Some have attitudinal defects which block investment in school tasks. They conduct the class campaign against education. Many act out their problems in the classroom."

"Reluctance to segregate them is destroying the school's basic function. The school must be able to handle the individual. The problem this imposed is literally wearing out many a sensitive career teacher. The majority of classroom members are changed while the teacher tries to cope with the maladjusted."

"Teachers themselves become frustrated and demonstrate unhygienic behavior which is difficult for the normal youngster to accept. For every year of teaching, the teacher must have twice the time invested in pseudo-temporary attempts to help the wayward ones. A thinking of this basic issue would be a relief to the maladjusted pupil, the teacher, and the group," he maintains.

"But it would do more toward improving education than all the conferences on education for the space age."

The Allen Heyn family was pleasantly surprised by a visit from Mr. Heyn's mother of California, New York and his sister, Mrs. Donald Williams. They arrived Tuesday, September 23, for a two day stay.

Mr. and Mrs. Donald L. Fife returned home on Thursday, Sept. 24, after a two week vacation when they visited Mrs. Fife's brother in Ohio for two days and then spent the remaining time in West Virginia with Mrs. Fife's mother.

GUY WEBB, son of Mr. and Mrs. Floyd Webb of Kirkville, broke both arms as a result of falling out of a tree Sunday, September 21. He sustained several days in William Beaumont Hospital where he was treated.

The Happy Bluebird Troop visited the Farmington Enterprise last Wednesday. The group, which each month is being planned for the Bluebirds.

Mrs. Gertrude Jacobelli is resuming her ceramic classes October 16 at her home at 2822 1/2 Kirkville. The first class will include lace work. Anyone interested in joining or anyone further information, a request to call Mrs. Jacobelli at GR 4-8878.

EIGHTY YEAR old Nancy Politz challenges anyone to beat her half-hour record of 5,600 revolutions in one hour and four minutes. Nancy, daughter of Mr. and Mrs. Douglas Bell, lives at 2835 Kendallwood Drive.

Mrs. Charles Faber entertained her bridge club Monday evening, September 22, at her home at 2822 1/2 Kirkville.

Mrs. Allen Heyn of Green Willow Rd. was hostess to her bridge group Wednesday night, September 24.

Bill DeGraw spent last week in Los Angeles on a business trip.

The second meeting of the Kendallwood choral group was held at Nadine Bregle's home on Kendallwood Dr. March 21. The group is temporarily reorganizing. The group is temporarily reorganizing. The group is temporarily reorganizing.

# Alta Loma Sub News

MARLENE THEOBALD GR. 4-9445  
HARRIET PELL GR. 4-8779

The Alta Loma Association would like to inform all local dog owners that as of October 1, the new dog license ordinance takes effect. For details please read last week's Alta Loma news. The association is holding a meeting on October 15 at 8:00 p.m. at the home of Mrs. Ed Elgood. The group's director and Rosemary Timm, new accompanist. Grace Nye, Rosemary Timm, and Grace Kaufman recently joined the group which is rehearsing for an engagement to sing October 16 for the Royal Oak Child Education Association.

JEAN ALLYN's mother has taken ill and in Wyandotte Hospital. Friends and neighbors wish her a speedy recovery.

Tickets are still available for the Kendallwood 1 Association's Western Pow-Wow at Guffin's, Frontier Town this Saturday night, October 4. A buffet dinner will be served from 7:30 p.m. to 9:00 p.m., followed by a party and dancing with music by the Starlights. Don your western garb and join the fun. Because of dinner reservations, tickets must be purchased immediately. Call Zee Maki, GR 4-7336; Dolores Gasior, GR 4-7797; or Donna Cove, GR 4-0769.

**Fried Chicken**

It's time for old-fashioned fried chicken with biscuits and gravy. The old hens are being moved into the market. Make room for the yearling pullets and prices will be very favorable, reminds the Marketing Information Agent.

To try these older chickens, drive south on Highway 101, through the market, and stop at the old-fashioned chicken and butchery. When ready to try, use chicken fat and butter if needed. Fry the pieces until golden brown, no flour is needed. Prepare the gravy using the broth in which the chicken was cooked.

There will be plenty of chicken to serve with biscuits for an old-fashioned meal on a brisk fall day.

The world's oldest lost Thomas A. Edison in his teens when a policeman, not knowing of his partial deafness, mistook him for a thief one night, and shouted a warning which got no response, then fired a bullet past his head.

Kenneth Weinzapfel Rites Held Last Week

Services for Kenneth H. Weinzapfel, 41, son of Henry A. Weinzapfel of 31805 Dohany Drive, Farmington, and the late Nora Weinzapfel, were held at St. Gregory Church, Detroit last Wednesday.

Weinzapfel was a process engineer at Ford Motor Company for some years. He is survived by his wife, six children and three sisters.

# Timely Tips on GARDENING

By Betty Frankel

Now that the end of September is nearing, light frosts are likely to occur any night, and by mid-October the Farmington area usually has the first hard frost. Frosts are more likely to occur on clear, starry nights when there is no low blanket of clouds to prevent radiation of heat from the earth.

Plants that are near the house, especially those on the south side or those beneath an overhanging eave, are the most likely to escape damage from frosts that will kill plants that are not so favorably located. Newspapers, old coats, or boxes or baskets can be used effectively to prevent early frost damage. These work by preventing the escape of the sun's radiation and the soil soaked up during the day. Also, they can effectively prevent frost damage even though the air temperature may be below freezing. The covering should be removed during the daytime. Also, they are most successful if they are supported in some way so that they do not come in contact with the leaves of the plant.

It is well worth the effort to protect at least some of the tender annual flowers and the plants from early frosts. Often a frosty night or two in September will be followed by a month of warm frost-free weather. Assemble the covering material in advance to avoid a last minute scramble, and check the weather reports daily.

**REMINIS**

Put out the bird feeder and start stocking it with a variety of seeds and perhaps some migrating flocks will linger in the garden a few days. Complete a contemplated evergreen plant as soon as possible. Order bulbs for Fall planting while selections are still good. Plants can be transplanted in full bloom, but need to be watered thoroughly for a few days after the move. When planting bulbs and perennials in fall, dig a hole for the plant, plant it well to avoid confusion next spring.

Two pounds of peaches will make four 1/2 cup servings sliced and one 8-inch (square) upside down cake or one 8 to 9 inch pie, say Michigan State University food specialists.

**EUONYMUS**

As the leaves assume their autumn hues, one plant blazes in color and another in red. This is the burning bush, or Euonymus alatus. Its small, lance-shaped leaves take on a russey, fiery glow.

This plant is also attractive all year around. In summer the leaves are a fresh green color, and in winter the bare branches are interesting because of the corky ridges or wings that protrude on four sides of the branches. Euonymus alatus will grow ten or more feet tall, but there is a compact form that reaches less than five feet in height and is thus ideal for inclusion in foundation planting.

This genus has other members that are quite different in appearance. One, the burning bush, but are also choice landscape material. European Euonymus has similar foliage, but has less pronounced cork ridges on the branches. It becomes tall and somewhat leggy, but its berries are reputed to be the favorite food of cardinals.

Euonymus patens has evergreen foliage and attractive orange berries. It is a bushy plant that ultimately reaches six feet in height. It is extremely hardy and will tolerate a wide range of growing conditions. The soil may be either acid or alkaline, and it grows well in shade. It takes well to pruning and makes

# Kensington Offers Fine Fall Scenery, Naturalists Report

The park entrances (both accessible from Grand River as well as expressways) and takes less than an hour and a half of driving time. The trip traverses the most scenic of the park drives through hilly, wooded land, passing several lakes. Motorists may leave the park temporarily for a 16-mile drive through the countryside, skirting the General Motors proving ground, and return for another loop around island-studded Kent Lake.

Many excellent views of the 1,300-acre lake are obtained, particularly from high Buno Oval. Maps and other information are available at the beautiful new Nature Center building there.

Kensington, the naturalists agree, is one of the best places to see some of the best of the state's natural resources. It makes an excellent growing old frame. It makes a charming scene where a glimpse of greenery is welcomed during the winter.

There are other Euonymus vines that are useful for edgings, and there are some that make excellent ground covers.

Another member of the Euonymus family is the wild bitter-sweet. Bunches of the orange berries will soon be appearing for sale at roadside stands and known and most loved native florists. This is one of the best of the state's native Michigan plant.

**Local Man Honored On 83rd Birthday**

Gayle Dalna Harder of 21302 Whittington was honored Saturday, September 20, on his 83rd birthday with a party for family and friends given by his wife. Guests attending came from Albion, Grosse Pointe, St. Clair Shores and from Farmington and the vicinity.

A dinner was served on the lawn. Many lovely gifts were presented to Mr. Harder.

Firm-ripe peaches may be stored at room temperature until they ripen. Full-ripe peaches should be stored in the refrigerator, according to food specialists at Michigan State University.

**Oct. 12-18 Proclaimed Credit Union Week**

October 12 through 18 has been proclaimed as "Credit Union Week" throughout Michigan by Governor G. Mennen Williams.

It was just 33 years ago that a Credit Union was passed in Michigan. It was pointed out in the proclamation. Today there are more than 1,100 credit unions in the state serving over 725,000 people.

Cottage cheese, made from pasteurized skim milk, is high in protein value and low in calories. It combines well with other foods and adds real taste appeal to summer salads, say food specialists at Michigan State University.

"Look is good planning, carefully executed," — The American Salesman.
