Kiwanis Hear Talk on Japan

An inside view of the island empire of Japan was given by Dr. Akira Sakuma at the Kiwanis Club meeting at Himmelpach's on Tuesday, October 21.

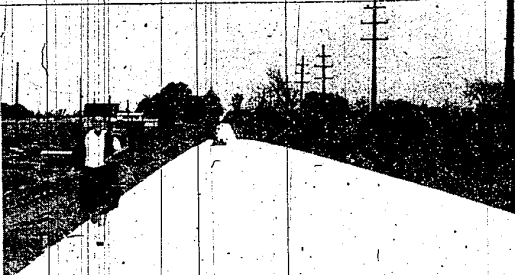

A Doctor of Pharmacology engaged in advanced research at the U. of M. Medical School, Dr. Sakuma's color film of Japanese scenes and ceremonies explained certain Japanese customs not generally understood.

A graduate of Japanese universities, Dr. Sakuma is in this country on a scholarship granted by an American manufacturer of proprietary medicines. His scholarship in itself illustrates the value of international exchange of students, teachers and specialists.

"Dr. Sakuma's brief talk furthered international understanding by making some Kiwanians aware of the similarities between people on opposite sides of the earth," Charles Merryman, Kiwanis Club program chairman, said.

Actual: It is that section of concrete paving laid on 12 Mile Road from Orchard Lake Road as it takes a sharp eastward turn from Farmington Road, students from Dunckle Junior High, like the girl at left in this photo, are finding it a wonderful, big sidewalk to travel to and from school on right now. As soon as work on the shoulders is completed, however, it will be taken over by automobiles and the students will be back to walking the shoulders again.
