**SPRING FRAGRANCE**—The fragrance of Spring is in the air. The aromatic spice of new mown grass blends with the pungence of fertilizers and the musk of warm, moist earth, and over all hangs the faint, pollen scent of Spring blooming flowers.

Forsythia are a vivid golden yellow in almost every Farmington yard, and in many garages bush cherries have blossomed into airy pink and white clouds.

**VEGETABLE GARDENS**—No vegetables are as sweet and tender as those grown in the home vegetable garden. They can be picked at the peak of perfection and rushed from garden to table so as to lose no flavor or crispness.

It is not necessary to have an extensive area to enjoy home-grown vegetables. A small plot that is planned and planted carefully will have a surprisingly large yield. Grow only those vegetables that the family likes, and in quantities that family and friends can use. Tomatoes, beans, squash and many others are easily grown. Many simple stretch or planter boxes can be grown in the yard, and in quantities that family and friends can use. Tomatoes, beans, squash and many others are easily grown. **THE FUTURE IS LIGHTED FOR US WITH THE RADIANT COLORS OF HOPE**

In every corner of this earth, scientists, physicians and chemists are patiently searching for better ways to treat disease. Old drugs are being re-evaluated to determine additional benefits. New chemicals are being created with the hope of discovering a future use for them.

As fast as they are clinically proved, new new compounds are stocked in our prescription department. If you have been sick for long, do not give up hope. Some day, perhaps very soon, a new medical discovery will cure you. Meanwhile, depend on your physician for relief.
