For SOFTER, BRIGHTER, CLEANER CLOTHES

Get an AUTOMATIC

# GAS DRYER

End back-breaking trips to the yard with heavy loads of wet wash. Just pop wet clothes into our automatic Gas Dryer—and relax. In minutes, an evenly-heated flow of warm, dry air gently whisks out moisture & fluffs and renews even the most delicate fabrics. Your clothes will stay softer, brighter, cleaner than ever with a Gas clothes dryer.

**SAVE TIME...SAVE MONEY!**

Gas dries clothes for pennies a load—and an automatic Gas Dryer costs so little to install and maintain.

## Wood Creek Village

ANNE M. PHILLIPS  
MA. 6-6333

The Tenneys had a most interesting trip during the Christmas vacation period. They visited their 30th state, Hawaii. As soon as the boys got home from their last day of school on Friday, Dec. 18, they were off by jet. They spent the first night in San Francisco and had time for the boys to ride the cable cars and have a real Chinese meal before taking off by Pan Am jet for Honolulu. They spent a couple of days at the Royal Hawaiian before moving over to the Hawaii Village where they found better facilities for young people and only six swimming pools! They took trips a-bout the island; they were there for a long time—the feast where a suckling pig is placed in a pit, covered with fat and banana leaves, roasted 4 or 5 hours, then served with long rice, coconut cakes and pudding. They took a catamaran trip to Pearl Harbor three hours away by catamaran, saw the great USS Arizona, saw the flag at half mast for the boys who lost their lives there 18 years ago, and went up to the Punch Bowl Memorial where 17,000 of our boys, including Ernie Pyle, now rest high up under a beautiful sky.

In our jet age it was possible for them to spend two weeks on a seventeen vacation period in Hawaii; the boys were back in school and Mac back to work on the 4th.

**CHRISTMAS** morning the Billus drove up to Ayr, Canada, to spend the day with Alice's sister and family. They returned home Saturday. On Saturday the Campbell family invited over fifty of their friends from Detroit and neighboring cities for cocktails and a buffet supper. All but four made it in spite of the fog. They had a fine time dancing till about 3 a.m. when it began to clear and all but one couple decided they could get home.

June Bickert's parents, the W. F. Gareys, of Washburn, Wisconsin, arrived Dec. 12th and were with them till last Tuesday. Bob's parents came from Detroit Xmas day to make ten for a very fine family gathering. Sunday June had "open house" for her two brothers, William Jr., and Leo, Iowa. George's father had to leave shortly after Xmas to be back for a Rotary gathering on the 30th to which he had invited several members of his family. Fog fouled up plane schedules but they got him on a train and he made it. The young people returned to Cambridge on the 30th, and later that evening they had ten of their business friends come out to see the New Year in with them.

**A WEEK AGO** Saturday Gerry Dynda was taken back to the hospital in Ann Arbor for further treatment. He may have to be there a month but we all hope he will return in the best possible health.

Claudia McDonald got her 4th concussion the Monday before Xmas and had to be in the hospital a couple of days. This time it was not a bicycle accident; she was knocked down in the school gymnasium. Just what happened she is unable to say. She was home for Xmas and able to enjoy it.

A correction: Mike King graduated from Michigan State University at Lansing—not Ann Arbor.

### 1960 Census Office Set Up In Pontiac

Establishment of a district office for the 1960 Census of Population and Housing at 531 W. Huron St., Pontiac, was announced today by Director John E. Tharvidson of the Census Bureau's regional office at Detroit, Michigan.

Mr. William C. Hintz will be supervisor of the district office. He will direct a force of 97 crew leaders and 644 census takers in Oakland County.

Taking the 1960 Census nationally will require the services of 100,000 enumerators, 10,000 crew leaders, and 400 district supervisors, all temporary workers. The district supervisors, working under the general direction of the permanent regional field directors, are responsible for all phases of the census in their districts.

Duties of the district supervisor include the recruiting of the crew leaders, obtaining space for crew leader training, recruiting and training a small office staff, reviewing the completed questionnaires, and direct supervision of the field canvass which begins on April 1.

Prior to the start of the census, all households will receive in the mail an Advance Census Report Form, a new census-taking device which is designed to speed up the field canvass and provide more accurate statistics.

Distribution of this form, which contains the basic population and housing questions, gives the family a chance to assemble information about each member in advance of the census taker's visit.

Detroit is the second accessible city in the world for motor vehicles.

## Determination to Repair Old Player Piano Pays Off

About 30 years ago piano manufacturers ceased production of "player pianos" and another era of entertainment was ended.

Recently, however, a large piano maker put a new player on the market selling in the neighborhood of \$1400 to \$1500. And, almost overnight the old uprights again began to move in a flurry of rejuvenated activity. Today the demand is really great.

Purchasers claim they're a cinch for holding teenage crowds in line. Kids are meeting in their family recreation rooms and each taking a turn pumping and playing a song like a professional.

**SEVERAL YEARS** ago Jimmie Dula, owner of a used furniture auction house, fell heir to one of these relics. A player piano that would play a skilled mechanic, Dula decided to tear it apart and repair the player. The heavy black paneling hid a maze of tiny rubber tubes long hardened with age, resembling uncoked machine parts, broken and brittle. Each of the rubber tubes led to a shivers shot thru me at a sitting.

Days and countless long hours passed which only tended to strengthen Jimmie's resolve and determination to make it work or die trying. Promptly at 2:30 each afternoon Jim would lock his shop door and work into the night. This went on for nearly two months when at last at 3 a.m. one morning, after reversing a tiny piece of leather in the mechanism, the player gave out loud and clear.

**SITTING ALONE** in sheer delight, Jimmie pumped and pumped music rang through the empty store, causing such

### Wins Promotion In WAVE Corps

### Delsanter on German Border

Army Specialist Five William J. Delsanter, whose wife, Elizabeth, lives at Colorado Springs, Colorado, completed a one-week tour of border patrol duty with the 14th Armored Cavalry Regiment in Germany.

The primary mission of the regiment is the constant surveillance of NATO's Fulda Gap, a 100-mile segment of the Iron Curtain, which serves as the gateway to Berlin.

Specialist Delsanter, son of Mrs. Mildred E. Nacey, 30909 Orchard Lake Rd., Farmington, is a tank crewman in Company A of the regiment's 1st Battalion in Fulda. He entered the Army in 1944 and arrived overseas this tour of duty in November, 1958.

### To Finish M.C. Training Jan. 29

Richard F. Dennton, seaman recruit, USN, son of Mr. and Mrs. Finley W. Dennton of 28349 Parkhill, Farmington, is scheduled to graduate from recruit training Jan. 29 at the Naval Training Center, San Diego, California.

The graduation exercises marking the end of nine weeks of "boot camp" will include a full dress parade and review before military officials and civilian dignitaries.
