Fire Costs Up

Home fires increased steadily during the 1950's. Homes are now being destroyed or damaged at the rate of nearly 600,000 per year. Property damage amounts to about \$376,000,000 annually, while close to 5,700 lives are being lost. Defective or unsafe heating equipment, and thoughtless family activities account for the greatest number of "fire statistics."

The biggest Boy Scout Exposition show ever staged in Detroit will take place at the Michigan State Fairgrounds, June 10, 11, 12.
