

STORY OF SUCCESS

Dyar Moving & Storage Co. Branch Opens Here

Edward J. Dyar, Jr., head of an expanding moving and storage establishment should serve as an example to young men that they can still find opportunity in this business. Dyar, 37, for them first and work for them afterwards.

Head of Sprague Moving and Storage Co., 12222 Hamilton, Highland Park, Dyar only recently opened a new branch office here. Known as Dyar Moving & Storage Co., the local branch is located at 23100 Grand River, at the corner of Maple.

Dyar did not come to the picture until 1952. It was the year that he launched out in business for himself by purchasing the Sprague company, an operation which had only two years of existence.

He started his experience in the moving game with Leonard Brothers Van Storage Co., where he worked for the New York Central in traffic while at the same time taking night courses sponsored by the Traffic Association. He also worked for the Cadillac Division of General Motors Corp. in the traffic department.

Always wanting a business of his own, he saw his chance in 1950 when he heard the Sprague Co. was ready to change hands. One of the great days of his life when he purchased the business, it was also the beginning of a lot of hard work reorganizing a big building up of efficiency in the years of training in traffic detail work. Today his company is known as one of the top moving companies in the North American Van Lines.

Recent opening of the Dyar Van & Storage Co. here is an example that the business operation Dyar built is continuing to grow. His rolling equipment now numbers nine vans and a truck.

His main objective is to serve all the needs of today's moving people. With the help of a capable staff, Dyar has built up a reputation for efficiency in his moving and storage operation.

Dyar and his wife, Betty, live in Redford Township. They have two sons, Mark and William. He is active in the Knights of Columbus, the S. O. U. Business Men's Club, the Elks Club and the Michigan Warehousemen's Association.
