Cville Scrap Drive Saturday

The athletic department of Clarenceville High School will have its spring scrap metal drive Saturday, May 28 from 9 a.m. to 3 p.m. Funds received from this project in the past have been used for a number of items including new equipment, improvements in the athletic field and other projects of the organization. It would be appreciated if all persons who could assist in this program would have the scrap metal ready. It would also be helpful to the group if you would call the high school to leave your name and address and where the material could be picked up. Coaches and players at the school have their appreciation for your cooperation in the past and hope that this year's project will be bigger than ever.

Last Friday night was the monthly meeting of the Farmington Spec's Investment Club hosted by Jack Yates. Dan Hickey and Jack Yates reported that it was voted not to invest this month and have a double investment next month on a desirable stock. The proposed stock should be under construction almost anytime. After several plans of discussion and planning a design has been chosen and the new builder has agreed to provide the labor. So in the very near future we should have a very attractive entrance to Orchard Meadows.
