**LEGAL NOTICE**

**NOTICE OF SALE**  
\$1,500,000  
FARMINGTON  
PUBLIC SCHOOL DISTRICT  
TOWN OF FARMINGTON  
MICHIGAN  
Building and Site Bonds,  
Series 1

Sealed bids for the purchase of Building and Site Bonds, Series 1 to be issued by Farmington Public School District, Oakland County, Michigan, of the par value of \$1,500,000 will be received by the undersigned, at the office of the Board of Education, 24000 Thomas Street, in Farmington, Michigan, until 8:00 o'clock P.M., Eastern Standard Time, on Wednesday, the 29th day of June, 1960, at which time and place said bids will be publicly opened and read.

Said bonds will be dated June 1, 1960, will be coupon bonds in the denomination of \$1,000 each, will be numbered consecutively in the direct order of their maturities from 1 to 1000, and will bear interest from their date at a rate or rates not exceeding one per annum, payable on June 1, 1961, and thereafter semi-annually on December 1 and June 1 of each year thereafter. The annual interest rate or rates upon which it is submitted, expressed in multiples of one-half of one percent, for each coupon period on any one bond shall be at one rate only. Accrued interest to date of delivery of such bonds must be paid by the purchaser at the time of delivery.

Said bonds will mature serially on the first day of June in each year as follows: \$200 in each of the years 1962 and 1963; \$40,000 in each of the years 1964 thru 1968; \$50,000 in each of the years 1969 thru 1973; \$60,000 in each of the years 1974 thru 1977; \$70,000 in each of the years 1978 thru 1980; \$80,000 in each of the years 1981 and 1982; \$90,000 in each of the years 1983 and 1984; and \$100,000 in each of the years 1985 and 1986. Bonds maturing in the years 1971 thru 1986 are subject to redemption by the school district prior to maturity, in inverse numerical order, after June 1 of more interest payment dates on and after June 1, 1970, at par and accrued interest plus a premium of 100% of the principal on each bond in accordance with the following schedule:

\$25 if called to be redeemed on or after June 1, 1970 but prior to June 1, 1972;  
\$20 if called to be redeemed on or after June 1, 1972 but prior to June 1, 1974;  
\$15 if called to be redeemed on or after June 1, 1974 but prior to June 1, 1976;  
\$10 if called to be redeemed on or after June 1, 1976 but prior to June 1, 1978;  
\$5 if called to be redeemed on or after June 1, 1978 but prior to June 1, 1982.

Notice of redemption shall be published not less than 30 days prior to the date fixed for redemption at least once in a newspaper or publication circulated in the City of Detroit, Michigan, which is a part of its regular service, notices of the sale of municipal bonds. The remaining bonds will not be subject to redemption prior to maturity. Both principal and interest will be payable at such bank or trust company as shall be designated by the original purchaser of the bonds. A copy of the indenture may also be so designated.

The bonds are to be a part of a total authorized issue of \$1,000,000 voted for the purpose of defraying the cost of erecting and furnishing a new junior and senior high school building and new elementary school buildings, erecting and furnishing additional existing school buildings and acquiring school sites and additions to school sites, and for the general operations of the school district which is authorized and required by law to levy upon all the taxable property therein such ad valorem taxes as may be necessary to pay the bonds and the interest thereon, without limitation as to rate or amount.

For the purpose of awarding the bonds, the interest and each bid will be computed by determining, at the rate or rates specified, the total dollar value of all interest on the bonds from July 1, 1960, to their respective maturity dates, and deducting therefrom any premium. The bonds will be awarded to the bidder who produces the lowest interest cost to the school district. No proposal for the purchase of less than all of the bonds or at a price less than their par value will be considered.

A certified or cashier's check in the amount of \$30,000 drawn upon an incorporated bank or trust company and made payable to the order of the Treasurer of the school district must accompany each bid. If the bidder fails to take up and pay for the bonds, no interest shall be computed on the bonds. Valid checks and checks of the unsuccessful bidders will be promptly returned to each bidder's representative or by registered mail.

Bids shall be conditioned upon the receipt of a resolution of the Board of Education, signed by the Board, and the approval of the Michigan State Board of Education. The cost of preparing the bonds and the printing of the bonds will be paid by the school district. The bonds will be delivered at Detroit.

**LEGAL NOTICE**

The right is reserved to reject any or all bids. Envelope containing the bids should be plainly marked "Proposal for Bonds". Approved: April 5, 1960  
STATE OF MICHIGAN  
MUNICIPAL FINANCE COMMISSION  
Secretary of  
The Board of Education  
NOTICE TO BIDDERS: The Board of Education will accept no bid, providing for supplemental interest coupons. The above-mentioned issue of bonds has been qualified to the extent of 100% by the Michigan Superintendent of Public Instruction pursuant to Act No. 151 of the Public Acts of 1955, as amended.  
PATRICIA DATES

Follow the "low-temperature" rule when cooking fish. Mary Coleman, foods and nutrition instructor at Michigan State University, says high temperatures should be limited to broiling or short cooking periods.

**Police Snag Peeping Tom**

Leonard L. Lang, 20, of Farmington, was arrested by City Police at 1 a.m. Sunday for window peeping in Bel-Aire subdivision.

Residents of the area called police to report a suspicious looking man in the sub and officers rushed to the scene and made the arrest.

Upon questioning Lang admitted several instances of window peeping in Bel-Aire but denied entering any homes. He appeared before Judge Max Hulet Monday on a charge of window peeping and was fined \$35 plus \$15 costs.

Residents of the area had reportedly seen a powder-thief for the past few weeks and police had been maintaining a close surveillance on the subdivision as a result of the many complaints.

Add flavor to baked fish by pouring tomato sauce over the fish before it goes into the oven.

**Timely Tips on GARDENING**

By Betty Frankel

**ROSES**  
June is the month of roses. There are roses, roses everywhere. Red roses cover a wall, yellow roses between a fence, beds are massed with coral-toned floribundas, and tuge-flowered hybrid teas are prized specimens.

The hybrid teas are the most popular rose type grown in the United States. Flowers are large and are produced one at a stem. They are often regarded as collectors items by gardeners, who each year add a few new varieties to their already colorful assortment.

The floribunda roses, which produce clusters of medium sized flowers, are an ideal bedding plant. They bloom abundantly in June and continue throughout the summer and early fall. In Europe, now about eighty percent of the roses being grown are floribundas. Beds there are generally filled with plants of a single variety for a more definite and dramatic color impression.

The grandiflora class was first introduced five years ago. It is a combination of the large flower size of the hybrid teas and of the cluster from of the floribundas. Queen Elizabeth was the first grandiflora rose introduced. It won an American Rose society award in 1956. The second grandiflora to be so honored is the bright cherry red, Starfire, which was a 1959 selection.

The three 1960 All-America Rose Selection winners are Sarabande, a floribunda with semi-double orange scarlet flowers; Fire King, a tall growing floribunda with double, oriental red flowers; and Garden Party, a hybrid tea which produces beautifully formed cream and pink flowers.

**REMINDEES** - Don't remove bulb foliage until it has turned brown and has matured to the stage where a gentle tug will remove it without lodging the bulb. This is the last call for planting sweet corn. Another row or two of green beans can be planted to fill in where early radishes and lettuce were harvested. Heavy rains tend to wash prays and dusts off leaves, so plan on giving another application. Roses benefit from feeding with a liquid fish fertilizer. Spray roses every week with an all purpose fungicide, insecticide, and miticide. This is most easily done with an aerosol spray can.

Youngsters between the age of 5 and 14 will make up the greatest number of this summer's swimming population. According to the Institute for Safer Living, its age group also will produce an estimated 1,200 drowning fatalities.
