YOUR PHARMACIST SPEAKS

By: JOHN D. SCHMALZ, R.P.H. The rather loose usage of late of the term "virus" leads some people to believe that a virus is a rather new and always mysterious malady. Actually, all of us are constant incubators of viruses from most of our lives.

From the common cold and cold sores to mumps, measles and chickenpox we have all been attacked by and have recovered from viruses. There are other infinitely more deadly viruses, however, such as polio and sleeping sickness and, strangely, even animals, insects and plant life are subject to attack from viruses peculiarly their own.

Not so strangely, JOHN S. PHARMACY should be your first stop for the latest and best in drugs and medicines of all types. Our prescription service is dedicated to the safeguarding of your health and well being. You can also place your confidence in the gift and card selections displayed at JOHN S. PHARMACY, 3151 13 1/2 Mile Road, Phone GR. 4-3700.

Wise motorists have a dare for roadside safety. Equip your car with approved flares for use during emergency night stops. A flare is essential if you must stop on a thoroughway or at any point where you cannot pull completely off the road.
