

## Downtown Stores Giving \$1,000 Bill Christmas Gift

### Register Now at Any Participating Store

Your chance of winning the crisp new \$1,000 bill to be given away as a Christmas gift by merchants in downtown Farmington is as good now as it ever was and will be right up until the weekend prior to Christmas.

Most stores in the downtown Farmington area are accepting registrations and you should ask for registration slips whenever you visit one of them. You may register in all of the stores and business places participating and you are not restricted to one registration at any one store.

This special project is being conducted this year for the first time under the auspices of the Downtown Farmington Association, an active organization made up of the businessmen in the downtown Farmington shopping district.

Announcement of the winner is scheduled for Saturday, Dec. 22. The exact time of announcement has not yet been decided. It was noted out, however, that you will not have to be present to win and that the lucky winner of this really special, big Christmas gift will be informed personally.

### Post Office Launches Mail Early Campaign

Postmaster Henry Trombley says, "Right now is the time to start your Christmas cards and gifts on their way. The calendar says Christmas is less than a month away, but here in the Post Office it will be Christmas every day from now on."

The Postmaster went on to say that by getting into action now, a lot of headaches can be avoided when the full Christmas rush begins. For example, don't take chances on mailing poorly wrapped packages. Use sturdy corrugated mailing cartons heavily padded with adhesive tape and strong cord. Cartons containing several gift packages should be fully stuffed with tissue or old newspaper to cushion the contents.

If you have articles of unusual size or bulk, better check with the Post Office before attempting to mail them. The limit on size and weight of packages varies, depending on where you mail them from. As an extra precaution, it's always a good idea to place an extra label carrying both your return address and the recipients address inside the carton or package.

Postmaster Trombley also suggests, "Be sure to send your Christmas cards by First Class mail, using the attractive new 4-cent Christmas stamps. When sent First Class, your cards are delivered quicker, and they'll be forwarded or returned, if it becomes necessary. Also, they carry written messages along with your signature."

The Postmaster says it's especially important to place your return address on every Christmas card envelope. Besides being socially correct, this is a big help to both you and your friends in keeping your mailing lists up-to-date.

Before you mail your Christmas cards, secure free labels from the Post Office which read "CALL FOR LOCAL DELIVERY" and "CALL FOR OUT OF TOWN DELIVERY," so that you can sort your cards into two bundles, with the addresses all facing one way, thus expediting delivery.

"Mail Early and Often!" is the Postmaster's special slogan for this year's "Mail Early for Christmas" Campaign. It looks like a record year for Christmas mail and that's why the Postmaster will especially appreciate your help in getting started now on your Christmas mailings.

Christmas cards and gifts for most distant points should be mailed first, preferably before December 10. Those for nearby points should be mailed by December 15, or at least a week before Christmas.
