On a national basis, "each year more boys advance in rank than in the previous year." The insights tells of the Scoutcrafts he has mastered as he grows to responsible manhood. Hunt explains: "Emblems earned by individual Scouts through their initiative and enterprise include various Church Awards, Hornaday Conservation Award, Historical or Memorial Trail Medals, and Red Cross First Aid and Swimming Awards. Others may be won through before Christmas, and similar Scout-sponsored events. These emblems are in effect Hunt says, hallmarks that show a boy in Scouting increasingly learns how to take care of himself and assist others in times of stress. Also, he gets ample opportunities to develop his leadership aptitudes and skills."

YOUR PHARMACIST SPEAKS A question you won't find answered on any quiz show is what exactly is a virus? In some respects it is a living organism in others it is a pure chemical. Perhaps we might then argue with some logic that a virus is a living chemical. At any rate, they are infinitely small; the head of a pin easily holds 25 million Polio Viruses, and they have the faculty of self-duplication. Some schools of thought maintain that the first living things to appear on earth many millions of years ago were very similar to the viruses we know today. From these living chemicals sprang other and more complicated forms of life. Complicated or simple, calling for old medication or the newest on the market, prescriptions are filled quickly and accurately at JOHN'S PHARMACY.
