

Village Woman's Club Slates Feb. Speakers

New birth control methods undergoing field trials in Puerto Rico will be described by Dr. Katherine B. Greene at the annual luncheon meeting of the Planned Parenthood League, Inc.

Dr. Greene, former marriage counselor for Wayne County and Washtenaw County, visited Planned Parenthood clinics on a recent tour of Puerto Rico. Now in private practice as a clinical psychologist, Dr. Greene's subject will be "My Neighbor's Family."

THE SUNCHEON is scheduled for Wednesday, February 6, 1963, at 12:15 p.m. at Veterans Memorial Building, Plan-

ned Parenthood officers will be elected at the business meeting to be held preceding the luncheon. Mrs. Thatcher W. Rea, of Grosse Pointe, is the outgoing president.

Mrs. Rea will have two

exciting Planned Parenthood

League developments to report

the meeting of Detroit

headquarters and the opening

of the new Oakland County

clinic in Birmingham.

Offices of the League, formerly in the Downtown YWCA, are now located in the Professional Building, Peterboro and Woodward.

Mrs. Mildred F. Stern, Executive Director of the League, reports that the shift in location makes possible additional services to the public. The patient load which had doubled in the last year, The League continues to maintain clinics in four Detroit general hospitals.

THE NEW QUARTERS of the Planned Parenthood clinic in Oakland County is a white frame building on 2125 Livernois Street in the heart of downtown Birmingham. The clinic is named the Elizabeth Duffield Memorial Clinic in memory of Mrs. Mark B. Duffield, one of the League's staunchest supporters from the Oakland area. This new location will house all the Oakland County clinics and will make it possible for you to serve more people from outlying areas.

Dr. Greene's lecture and the luncheon are open to the public. Tickets may be obtained by calling Planned Parenthood at Temple 2-7200.

Legislation creating the original International Bridge Authority was adopted by the Michigan Legislature in 1933, authorizing the Authority to build a bridge over the St. Mary's River at Sault Ste. Marie. The present Bridge Authority was created in 1953.

THESE BOY SCOUTS ARE BURNED UP in more ways than one. They are members of Troop 288 which recently had all its camping equipment destroyed in a fire at the garage at 19015 Deering in Livonia which had been used as a storage place. The scouts, (L to R) Larry Tougas, Bill Kloepper, Terry Bader, Mike

Thronton, Spike Tougas and Donny Knowlton, are holding up about the only equipment salvaged from the blaze, a few scorched mess pots. Their scoutmaster, Richard Thronton, is concerned as to what is to become of the Troop since it faces a debt of some \$300 still outstanding on tenting that was destroyed.

News from Kimberley

JUDY BURNS
GR. 4-3112

Sympathy is extended this year to all dripping sinuses, aching ears, flu-racked bodies and hacking lungs. Feel comfortable and if possible if you are in high grade and no exception you are miserable.

The severe cold and accompanying snow have been responsible for both fun and misery around the sub in the past few weeks. Nobody has to remind the O'Malley family of Kiltarion of the sub-zero temperatures as they know them well.

The girls joined the Kiltarion girls in the snow and the cold, but the fun was still there. Monday night, January 22, both the cold and hot water pipes in one of the upstairs bathrooms burst, and Don and Nancy spent a long, long night mopping and wringing. The family room ceiling sustained a major portion of damage and will have to be entirely replaced.

Nancy was without water on Tuesday, and to compound her bad luck the furnace also decided it was too cold and stopped operating on Wednesday. On Thursday the washing machine joined in the strike, and Nancy consequently would like to forget this past week.

BAD LUCK went steering with Harald Allard on Friday night the 18th, when he broke his right leg in a fall on the rink next to Wilmers on Greyhorse. Harold of course is our Detroit News carrier, and his route is now being delivered by his two sisters, Sue and Jo, and his son, 9, Paul. The girls are doing their good deed very conscientiously. Harold, by the way, must spend a total of eight weeks in a cast, but is now feeling fine and back in class at Dunckel on crutches. This is Harold's second bad winter, as last year he suffered a broken arm!

On the affirmative side, however, since he has been responsible for a lot of winter fun, too, Kimberley has had its usual share of skaters and skiers, and sled-fall youngsters are in abundance on every slightest incline.

An unusual winter party was

enjoyed on Saturday night, Jan. 26, by a gang of 12, Don and Dick McNamee, Jim and Dick McNamee, Phyllis and Ralph Kimbrough, and Judy and Jim Year's, ever-lapping their visit with the Hoosiers so that the fasts and likes were together for the first time since Al and Debbie's wedding ten years ago.

The visit is now especially treasured as Mr. Barnes served as a guest speaker on January 22. Condolences were sent to Don and Al, who have just returned from attending services in New Jersey.

AN ESPECIAL WELCOME to Bill and Kove (pronounced Ko-Vi) Moulton of Eleven Mile and their daughter, Diane, a two-year-old. Barbara High, 15, and Paul, 12, were active Muggers for Kimberley of Pontiac have been

sustaining for many months but have never been formally introduced. The Moulton's will be here for the overnight event.

THE TOOMEY HOME was the scene, Sunday, of a joint birthday celebration. Terry was 15 years old on the 29th and Leigh had her second birthday on the 30th. Peggy bought them a lovely cake with their

Pam Giampa and Carol Robertson went roller skating with their Campfire Girls group on Sat., Jan. 19. The girls had a pajama party Fri., Jan. 25 at Merilyn Miller's home on North Farmington. Mrs. Miller, Mrs. Carol Oates and the group shopped for the girls so they could have coke and chips. Later in the evening they made pizza in the kitchen. Nancy Storment and Jane Carras were guests for the overnight event.

THE BEECHVIEW HOME was the scene, Sunday, of a joint birthday celebration. Terry was 15 years old on the 29th and Leigh had her second birthday on the 30th. Peggy bought them a lovely cake with their

Betty and Paul are deeply touched by the thoughtfulness of their neighbors while the girls were ill, and wish to convey public thanks to all.

The Rankins were overjoyed by the sincere concern of the subdwellers and by their tangible help that included meals, washing and ironing, transportation to and from the hospital, and offers of blood. Fourteen neighbors some of whom had been away for a year's residence in Kimberley presented the girls with a portable television to make their bedridden weeks more bearable. The girls classmates at Beechview, Mrs. Burke's sixth grade and Mrs. McNamee's second grade and their second- and third-grade, girl scouts troop 430, also offered for their deluge of cards, notes, and visits.

Tragically as the accident was, Betty reports that the thoughtfulness of her neighbors has been a truly heart-warming experience that will be remembered always.

Speaking of the Rankins, happy birthday to Mary Lee, January 20. Mary Lee was a constant of Kimberley, a family party in her honor that included her grandparents, aunts and uncles, and cousins.

BET YOU DIDN'T KNOW that Linda Gould, 20, of Greycliffe is a student at the Detroit Conservatory of Music, and teaches piano at home in her spare time. Linda has several Kimberley friends, and we hope to see more. Call Linda, GR. 6-1063, if you're interested in lessons.

Lili Clark and Jo Olson, members of the Kimberley Cougars Bowling League, are now organizing a week-day morning league for Kimberley girls to bowl at Star Lanes when the '63-'64 season starts in the fall. If you're interested please contact either Lili, GR. 6-3017, or Jo, GR. 6-1436.

Lili's welcome more new Kimberleyites, Debbie and Al Bartsch moved into their Pipers Lane Pembury in November, a unique one-of-a-kind split level ranch borrowed from Kimberley North.

The Bartsch family moved here from the Buffalo, N.Y. area and have spent seven years in this Birmingham prior to that, and truly feel quite at home in Detroit. Al, industrial sales manager for the Automotive Bin Service Company in Detroit, and Debbie have two children - Leesa, 4, and Bert, 2. A curious settler named Chigger completes the household.

The Bartsches have been busy since their move, as Debbie's parents, Mr. and Mrs. Donald Hoag, of Elmhurst, Illinois, spent a week with them at Thanksgiving.

The dealer will then pick up the tabs and call the motorist to tell him when to drive for his "tab change."

Any car owner can obtain this service merely by visiting a participating Ford dealer or by mailing in the enclosed registration forms and paying the license fee by check or money order.
