

It's always open season on people. Firearms, warns the Institute for Safe Living of the American Mutual Liability Insurance Company, kill an average of more than 200 persons every month of the year. Inexperience, improper handling and storing, and playing with guns are among factors responsible for most shooting accidents.

The University of Michigan was the first U.S. institution of higher education to build a men's students' social building on a large scale, the Michigan Union, in 1919.

News from Kimberley

LIL CLARK GR. 6-1817

Carl Klukka (Manager) and Phil Northen (Coach) have a winning team. The Cubs of the North Farmington Pony League won the championship.

From Kimberley on this team are Allen Klukka and Bruce Luker. Allen was chosen to play in the All-Star game which will be played later in the summer. Climaxing play-offs and All-Star games will be followed by the awarding of trophies.

SILVIA ACOOSTA celebrated her third birthday with a party and all the trimmings. There to help her were Lynn Phillips, Mary Dygert, John and Evelyn Kollmorgen, Linda Thomas, Margie Macielack, Chilly-Havy, Kevin Young, Roubly, Eddie, Chris Leonard and John Horst.

Jim and Lila Gibbons welcomed their second daughter and third child, Jennifer Rene, born July 12, weighing a husky 8 lbs. 15 ozs.

Rupert and Margareta Hansen's guests for six weeks were Margareta's parents Mr. and

Mrs. Arman Jonas from Stockholm, Sweden. This was their first visit to the states and some of our warmest weather of the season greeted them. Luckily they managed to stay cool by spending much of their time in the Hansen's beautiful pool. Before returning to Stockholm they spent a weekend in Chicago visiting Rupert's parents. This will be my last column, so I am submitting for Judy's "Barn" family plan to be back in Kimberley this coming weekend. While I enjoyed dusting off my typewriter I will confine my writing to those occasional letters home, and now have a respectful respect for those who learn their living meeting deadlines.

Michigan had the nation's first superintendent of public instruction and was the first state to assure high school right to a tax-paid high school education. The state's educational system has been used as a model by many states.

It is not living next to nature that gets many campers in trouble, it's the comforts of civilization they bring with them. According to the Institute for Safe Living of the American Mutual Liability Insurance Company, such comforts as old-fashioned heating and cooking units and various appliances, defective or improperly handled, cause many serious camping accidents as do old or defective kettles, axes, and other necessary camping tools.
