Rep. Baker It Would Be A Costly Walk
 (Continued from Page 1-A) much of their work is done at home offices. The state government does not provide the representatives with separate office space, except for their desks on the floor of the House in the Capitol Building. The lawmakers all make use of a staff of secretaries in Lansing for answering most of their official mail after they have personally attended to the representatives. Baker pointed out this is why sometimes a letter goes unanswered for as much as a week or ten days since it takes time for the Capitol to process each representative's mail. Representative Baker held office in the City of Berkeley before running for the State Legislature. He is a graduate of the Detroit College of Pharmacy, a part of Wayne State University. He was born in Lake Orion and has spent all of his lifetime as a resident of Oakland County. He and his wife, June, have four grown-up children including two married daughters and two sons, the youngest of which is an engineering student at the University of Illinois. The Michigan Legislature is meeting today in the final day of the second special session called this year. It has been a long year for the lawmakers who will begin their regular session next month after a recess for the holidays.
