AMA Reminder on Health Care; Steps That Should Be Taken

Does this sound like something you've heard before? Many, many times. And you'll hear it again and again.

Despite all the combined efforts of the medical profession, public health officials, school officials, voluntary groups and many others, there still are countless millions of Americans who are facing unpreventable risks of disease, crippling and even death.

There ARE VACCINES and their families are against a number of communicable diseases now readily available.

There have been no cases of smallpox in the United States for several years, but there still is smallpox in much of the world, and each year or two this nation has a smallpox scare from an infected traveler returning from abroad.

There still are cases of tetanus, or lockjaw, every year. Almost every one is unnecessary. Tetanus is caused by a bacteria which enters a wound through a cut or scratch.

Thanks to the vaccines, poliomyelitis is now down to a few hundred cases a year. But polio is still present in the United States, and it is still a potentialcrippler or killer.

Request to Purchase School Site Denied Two Women Injured In Twp. Car Accident

A request made earlier by Frank Ziegler of Detroit to purchase a 12-acre parcel of land owned by the Farmington School District south of 11 Mile Road between Drake and Halstead roads was officially denied by the Board of Education at its regular meeting Monday night.

Ziegler wanted the property as a part of a golf course he had planned to develop in that area, it was indicated. He had offered to exchange some additional nearby land which he owns for the school parcel.

It was disclosed that an investigation had been made and that it was determined that this was the best location for a future school site in this entire area of the township.

Two young Farmington Township women were injured in an auto accident Monday afternoon, February 10, on Orchard Lake Road near Hill Road in Farmington Township when their car apparently went out of control, careened off the road and struck a parked car.

The driver of the car, Pamela J. McKennie, 22, of Orchard Lake Road in Farmington, received serious injuries and her passenger, Terry Moore, 20, of 2990 Grand River Avenue in Farmington, received less serious injuries. Both were treated at St. Joseph's Mercy Hospital in Pontiac.

There were no occupants in the other car which was parked in a lot in the Oakland Hills Trailer Park on Middlebelt just south of 11 Mile Road.

HOW TO PUT YOUR FINGER ON THE BEST BUYS IN TOWN

Each week the merchants who advertise in the FARMINGTON ENTERPRISE send you sales news that helps you make the best buys.

By patronizing these merchants you get the extra value of convenient store locations and courteous service. Most important, by making the wise local buys you're helping to build a better community.

Discover, who! smart shoppers have known for years - you buy better when you buy locally!
