A SECRET

A 241 lb. sack of Henkel's Bread Flour 97 lbs. of Henkel's Bread Four will make over 37 lbs. of bread. Everything but flour shrinks when cooked but Henkel's Flour grows. It costs less to begin with than any other food you like; and what other food do you like so well that you must have it at every meal in the year? Buy

NKEL'S FLOUR

IT IS NEVER DEAR

You can farm all the year 'round in Arkansas

PRACTICALLY
every month is a
productive month.
No long, hard, winters to
require expensive dottling
for the tamily or long feeding seasons for stock.

There is ple ity of land

Deep, rich so, and at very low prices. It will pay you to investigat.

We have just published six illustrated folders on Askansas. Send for the one that interests you.

us tell you about low-

in in the comment of the comment of

Hesitated Between Courses.

Jame, writing a letter, was unively ecough to spill the fat, upon a new reason to spill the fat, upon a new reason to spill the fat the mother than the fat the spill than similar case, he was working renewed have when the maternal presence appeared.

His progress was somewhat impeded by the determination of the kitten to enjoy the cleaning fluid.

"James." cried the shocked mother, sternly, "what on earth are you doing:"

ng?" James considered before replying.

en:
"I wonder if you'd be most angry if said I'd spilled the lak or was feedg the cat on the rug?"

Good Eyidence.

Good Evidence.

Katherine had been brought up to believe that tale-bearing was despicable, but there were times when begreed; twin starhed her principles to the snapping point.

"Katherine," and her mother one day, "is if nossible that you and Haward have eater that whole bag of perpermints that I meant to take to grandimother, just because I left the bag on the table?"
"I didn't take one of them, mother," in didn't take one of them, mother," and katherine, hab at tell take, but you what is a small bin!"—Touth's Companion.

Paternal Wisdom.

"Pa, what is a classic?"

"That depends, my son. A classic in Kentecky is a horse race."

thoughtful person uses liquid blue. It's a th of blue in a large bottle of water. Ask for Cross Ball Blue, the blue that's all blue. Adv

We feel sorry for the hero who is out of a job.

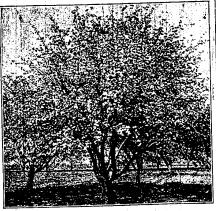

Helping a Woman

erally means beloing an entire family, back aches so she can hardly deag ind. Her nerves are on edge and she tearly wild. Headache and Steeplesse units her for the care of her family.

FREE TO ALL SUFFERERS. THERAPION

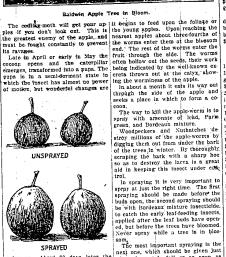

GREATEST ENEMY OF APPLE IS MOTH

s ravages.

Late in April or early in May the cocoon opens and the caterpillar emerges, transformed into a pupa. The pupa is in a semi-dormant state in which the insect has almost no power of motion, but wonderful changes are

brown spot marked with streaks of bronze or gold.

The moths begin to lay their eggs at once. The egg upon a leaf or fruit hoss like a small white billster about the size of a pin-head. They hat con a babout five or tien days. As soon as the young worm crawls from the egg. (Copyright, 192, by C. M. Shulling)

RAISING LETTUCE IN EARLY SPRING

Plants-Method of One Practical Gardener.

SUNFLOWER SEED FOR THE POULTRY

One of the Hardiest of Garden Considered to Be Equal to Flaxseed to Mix With Other Grains for Hens

Practical Gardener.

There are few green vegetables on the farm table relished so much as the first letture in spring.

Letture in one of the hose of may be sown ground. In fact, the crist is out of the garden plants, and the seed may be sown ground. In fact, the crist is out of the produced the seed may in a cool and moist stringshere, and the sconer in the spring it can be produced the better it will be in every flower seed its grown for a cool and moist stringshere, and the sconer in the spring it can be produced the better it will be in every a great stringshere, and the sconer in the spring it can be produced the better it will be in every and used the better it will be in every flower cake; is mixed with rye flour and made into bread, which is said to be host mutritions and palatable. Sundays and the seed of all ther other neighbors. This is the way also does the best ways on a month of the seed of the grape arbor, in a very high, dry, sheltered place.

About the middle of winter this bed is heavily manuared with the finest, wall decomposed stable manure that can be procured, with a theral proportion of poultry dropphage.

The manure is not simply scattered on the soil, but plied on four to six inches deep. Very early did the bed is down on the soil pour and the plant in spring the and the pound of the procured with a thors of the soil of the proportion of poultry dropphage.

Around the lettuce bed is placed a rade wooden frame, and over the frame is spring the down of the procured with and the lettuce and will give a larger yield of 20 to the soil of young plants from freeze the produced of the Russian variety severe.

The covering does not prevent the ground or young plants from freeze the produced of the Russian annual control of the Rus

seed is sown.

Around the lettuce bed is placed a graduant will give a larger state when the representation of the place and is spread old imatting, and old carpets when it freezes of the westher is very like the province of the place of the province when the province of the province when the province were provinced and thawing, and hold the temperature flower have been grown to measure the interest of the province when the province were provinced and thawing, and hold the temperature of the interest of the province when the province were provinced and the provinced when the provinced were provinced and the provinced when the provinced were provinced to the provinced provinced when the provinced provinced were provinced to the provinced provinced the provinced provinced the provinced provinced provinced the provinced provinced
