CLEAN-UP, FIX-UP Month is a good time to check your mail box and make sure it isn't one of the "leakers" being pointed out (above) by Farmington Postmaster Henry Trombley. When mailboxes are found in poor condition like this by your mailman, it handicaps him considerably in getting his job done. During the month of May, make a special effort to see that items like this are straightened out around your home, if it's needed.

A GOOD EXAMPLE of what mailmen like to have on their routes to receive your cards and letters is pointed out (above) by Farmington Postmaster Henry Trombley. These mailboxes are the right height, level, and well placed to allow the mailman ready access to service them.
