

Roberts Termed 'Hard Worker'

"My election to the 14th Senatorial seat is of the utmost importance to every citizen of this district, regardless of party affiliation," said former State Senator, Farrell E. Roberts.

"At this late date, to have adequate representation, this district must have a senator who has had previous experience and 'knows the ropes,' so to speak. Three months time has already gone by the books as far as the 14th district is concerned, making it just that much more necessary for the vacant seat to be filled by an experienced representative," Roberts added.

A former Republican State Representative for four years and State Senator for four years, Roberts established an impressive record during his tenure.

In addition to serving as one of Governor George Romney's closest legislative advisors during the past two years, Roberts authored and sponsored the new Court of Appeals bill and Community Mental Health Law and served as chairman of the State Committee on Judiciary.

PICTURE TALK

SPRING TONIC

There have always been two schools of thought about what to do for people who get spring fever. There was the notion shared by grandmothers that you would tune up the system. And there was admiration of grandmothers. Get out of the house, boy, before those confounded women put you to work when you're "rather too fit."

Nowadays we have better remedies than either. My own is to take a camera junk box into the country. Try it sometime. Especially with a movie like the BROWNIE FUN SAVER, for example. Keeping your eye sharp for the budding details of spring gives you a stronger feeling that spring is really popping.

The BROWNIE FUN SAVER Movie Camera doesn't burden you with chores. Just set the lens, aim and shoot. There's a big exposure bar that gives you a firm grip when you're ready to shoot. The winding handle folds out of the way. From one winding you can expose about seven feet of film... enough to catch a full 30 seconds of action.

Once you see this camera up close, I think you'll want to try it out. Won't you drop in and let me show you how easy it is to use? Incidentally, the low, low price of \$19.95 includes a roll of film and a movie idea book!

Carpet Center Moves Into New Quarters At 30830 Plymouth

The Carpet Center, Michigan's biggest carpet dealer, has moved into new and larger quarters at 30830 Plymouth Road and is celebrating its opening all this week.

After 17 years at 28801 Plymouth Road, the store, one of a chain of eight in Ohio and Michigan, moved into the new quarters due to the better parking facilities.

Under the management of Sam Bate, the Livonia store has developed into one of the larger units of the chain which has branches in Southfield, Warren, Toledo, Mt. Clemens, Southington and Pontiac.

Matter of fact, the chain started in Livonia 17 years ago and the success of the venture here led to the expansion that has made Carpet Center one of the largest dealers in the United States.

Bate indicated the entire sales staff moved with the Livonia branch.

"We have one of the largest broadloom carpet specialties stores in this section," said Bate. "We have the largest selection of carpeting in eastern Michigan and Northwestern Ohio."

Carpet Center specializes in handling Callaway and Masland brands. It is celebrating its opening this week but plans a grand opening sale later in the spring.

The store will be open every night to 9 p.m. with the exception of Sundays when the hours will be 11 a.m. to 6 p.m.

Redford and Livonia Girls Serve as College Tutors

Barbara Lemanske, daughter of Mr. and Mrs. Clarence Lemanske of 3588 Marion Crescent, Redford Twp.; Margaret Kleinert, daughter of Mr. and Mrs. Rudolf Kleinert of 9229 Cranston are two Livonians of the twenty-two students of Madonna College serving as tutors at the Psycho-Educational Center at Madonna College.

Classes are conducted weekly by Madonna students who are either fulfilling their pre-professional laboratory requirements for future teaching or who are seeking greater insight into the nature of individual reading problems for beginning teaching next fall.

The Psycho-Educational Center was founded in 1952 by Sister Mary Martina, C.S.J., Academic Dean, who felt the need of "helping youngsters who experience difficulty in school by investigating impediments which the ordinary teacher or classroom situation cannot help immediately." Such impediments may be as all-embracing as behavior adjustment or as frustrating as modern math.

Originally the Center had been organized to offer remedial services in reading. Because of special referrals it has expanded its services to include those of psychological and consultative nature. The Center's main concern, however, is remedial reading.

The action taken by the director and the clinical staff is threefold. Diagnosis, personality and intelligence tests as well as personal interviews with the pupil and his parents point up the student's difficulties and needs. Once the first step of diagnosis is made, plans for a specific remedial program are designed.

This second phase involves the uprooting of undesirable habits and the implanting of beneficial ones. The length of the instruction is dependent upon the individual needs of each child. Periodic reports of the child's progress constitute the third phase wherein parents and teachers arrive at an understanding of the pupil's educational needs.

The clinic has served more than 600 clients from Livonia, Plymouth, Northville, Detroit, Redford, Birmingham, Grosse Pointe, and Jackson. During the present semester 22 grade schoolers attend weekly classes at the Center.
