

# Students Enjoy Hootenanny

By JOANN VAN WYE

Everyone who attended the hootenanny last Friday evening had a real enjoyable time. The Student Council who sponsored the activity had gathered some famous folk singers to perform.

The Villagers, a group that placed third in Michigan in the folk singing category. Rick Ruskin, a well-known singer; Larry Lawson, the only folk singer who has ever been called back to sing on an encore; the Highlighters, a comedy folk singing group; the Randy Minstrels, and Miss J. Carroll Jackson were all present to entertain and lead the students in many popular folk songs.

John Bensmiller, who emceed last year's hootenanny, was on hand to perform the same task this year. Bensmiller also played some popular selections on his guitar.

The students had a good time sitting on the floor listening and later singing with the various groups.

Many students leave Joann high school not prepared for the

world which they are about to encounter. They are undecided about what they want to do so they just drift along without any particular course to follow. Thurston's counselors recognized this problem that was plaguing students and realized the importance of choosing a career and having a goal in mind. They organized a Career Day. Mr. Jacobs was in charge of making all the arrangements for this event which took place yesterday morning. Students missed their first three classes due to Career Day.

Instead of going to class, the students went to various rooms of their choice and talked to people who worked in the fields they were interested in. There were 75 representatives present from a wide variety of occupations. These representatives spoke about their job, its qualifications, the opportunities it offered, and exactly what it involved.

Wednesday the Spring School Forensics Contest was held in the little auditorium. The first and second place winners in this contest are going to go to Franklin for the Regional Spring Forensics Contest. The winners in the humorous category were Laura Kinnison, who read Pygmalion and Linda, who read Keegan Keegan.

E. Raymond Sage, The Observer Newspapers, 30050 Five Mile Road, Livonia, Michigan

Dear Mr. Sage:

Once again, we've had convincing proof of the effectiveness of Observer Newspaper advertising.

In a recent center-wide contest, Observer readers selected a whopping 5,284 entry blanks from a Wonderland section inserted in your publications.

In fact, a careful tabulation revealed that your newspapers produced nearly FOUR TIMES as many entries as the Sunday "zoned-edition" of the Detroit News.

Apparently, no other advertising medium in this area can match the impact or achieve the market penetration produced by The Observer group.

Keep up the good work.

Yours truly,

WONDERLAND MERCHANTS' COUNCIL
