

# HOT BISCUIT,

hot cakes, made with ROYAL Baking Powder are delicious, healthful and easily made.

## EQUAL RIGHTS AMONG BIRDS

Some Interesting Facts About Warblers Given by Professor Who Has Studied Them.

"The male pine warbler takes no part in the incubation of his young. He believes in equal rights of women, takes no part in the nest building, watches his little wife gather the material and put it together, while he sits on a branch close by, pouring out his love in sweet, delicious notes. It's a case of 'everybody works but father,'" said Prof. William Brinckley, discussing "Our Midge Common Warblers" in a recent lecture.

"There is no more varied group than that of the warblers. They are divided into two large groups, old world and new world warblers. The old worlders are smaller and more

moist in plumage. Anyone who can tell a warbler on the wing is a marvel. The differences of species are very difficult to notice when the bird is flying.

"The only way to know a warbler is to know him from the earliest through the various stages of his plumage, which change as fast as the Paris fashions. Of the wood warbler there are 150 varieties alone. Their territory covers the district between Argentina and Labrador. In North America there are fifty-five varieties. Here they reach their greatest numerical strength. They fly at night and often take a 500-mile trip between sundown and sunrise. They are rapid on the wing and often get ahead of the weather. They are easily harmed by storm, their plumage is quickly saturated with water and they drown."—Milwaukee Journal.

# LOCAL NEWS

Reed Webster of Detroit spent the week end with his parents. Dr. Miller has installed electric lights above his croquet grounds. Born to Mr. and Mrs. Harry Westfall, Friday, Decoration Day, a girl.

O. G. Smith spent from Friday until Sunday with Mr. Gray at Pontiac.

Wanted—Cattle to pasture. Albert Sulkowski.

## AVOID TOO MUCH REASONING

Those Who Would Argue Well Must Not Get Too Far From Tangible Fact.

Dr. Henry Bergson deprecates the tendency of philosophical thinkers to let their reasoning powers run away with them. That tendency is not confined to philosophers. It is the habit of all people, whatever their capacity, to give wide range to their reason and let go the primary facts or ideals with which they started out. He thinks it is absurd for a person to push his reasoning far from the tangible fact, for in that fact may be more truth than in all their logic.

This opinion should tend to inspire those people who are very verbose in argument with more modesty than they seem to possess. Our reasoning is really the weakest of our powers. It is so full of half-glances, prejudice, vanities and personal sympathies as to make our conclusions thoroughly unreliable. The true rule of argument is to state the fact and the principle which it illustrates, and cling to them as the best assurance that one can have for his contentment. There is nothing that has proved such a jungle in human experience as unguarded and unrestricted reasoning. The idea or doctrine that is true appears easily without a tortuous course of logic to reveal it.—Ohio State Journal.

## GOVERNOR DIDN'T NEED BATH

Smart Hotel Clerk's Order Was Revised by Stung Executive of Western State.

The governor of a western state, a man of wealth but of pernicious habits, walked into a hotel in San Francisco holding his head high and with a swagger in his gait. The chief clerk, who prided himself on his extensive acquaintance and boasted that he never forgot a face, hurried to greet the distinguished visitor.

## WOMEN ARE NOT BABBLERS.

Women are great talkers, but they don't publish business secrets in their small talk. In this respect they seem to do a little better than men.

The governor leaned over and whispered in the clerk's ear. The expression on the clerk's face changed to one of intense disappointment; he turned again to the man at the desk and called louder than before:

"No bath for the governor; the governor doesn't need a bath!"

The following officers were chosen: Noble Grand—Imogene Bicking; Vice Grand—Tessa Pierson; Secretary—Norine Hogle; Treasurer—Grace Nauman. Next week Saturday, June 11, will be Flag Day.

## WHY WORRY ABOUT THE FLY?

For Comparatively Insignificant Sum of \$10 Summer Pest May Be Done Away With.

With a hurried, mysterious air the little man with the package approached the proprietor of the Early Bird Lunch Factory.

"Are you troubled with flies?" he asked in a confidential whisper.

"I believe the food did say that 999,999 extra one flew in this morning," the proprietor replied.

"Well, sir, I have here the greatest exterminator ever discovered. If properly used this machine will positively kill every fly in the world. As this is the last machine I have you may have it for the trifling sum of \$10."

The ten exchanged hands; the little man surrendered the package and quickly disappeared.

Carefully obeying the injunction to "handle with care," the proprietor opened the package. In an abandoned necktie box lay an old rusty hammer decorated with pink ribbons and tagged with this inscription:

"Incarcerated flies in a dark room bore a gimlet hole in the wall and knock them in the head one by one with this hammer as they crawl out."

Notice is hereby given that the Board of Review of Assessments of the Village of Farmington will meet at the office of the village assessor in the town hall in said village on Monday, the 9th day of June 1913, at nine o'clock in the forenoon, at which time and place the assessment roll for said village will be reviewed.

Notice is hereby given to all persons feeling themselves aggrieved by said assessment to appear before said board of review and be heard in relation thereto.

Dated at Farmington, May 20, 1913. JOHN H. TRAYER, Village Assessor.

**Studebaker**

**"Studebaker wagons certainly last a long time"**

"I have had this wagon twenty-two years, and during that time it cost me only \$6.00 for repairs, and that was for setting two tires."

"And after twenty-two years of daily use in good and bad weather and over all kinds of roads, I will put this wagon against any new wagon of another make that you can buy today."

"Studebaker wagons are built of air-dried lumber and tested iron and steel. Even the paint and varnish are subjected to a laboratory test to insure wearing qualities."

"No wagon made is subjected to as many tests or is more carefully made than a Studebaker. You can buy them of Studebaker dealers everywhere."

"Don't listen to the dealer who wants to sell you a cheap wagon, represented to be 'just as good' as a Studebaker."

Farm wagons, trucks, dump wagons and carts, delivery wagons, bugies, nursery depot wagons and harness of all kinds of the same high standard as the Studebaker vehicles.
