You Can Still Get A Bang Out Of It

Tou Can still Get A Bang Out Of It
The spelain has been legislated cut of July 4. And It's
probably soved a let of us from burned fingers and clothes,
ingoled nerves and bandgoes. Jet a little notatolgle thinking
back to the fireworks, the way it used to be. But even without
the fireworks, It's still a fun holiday. And there is something
you should still shoot off this weekend—your comero.
Finicib, beaches, backyrub bachesus—wherever you find your
fun, your comero should be part of It. No subject mokes for
Setter pictures than our own than No pictures or a more
those that recall the fun we've had.
