Weights and measures officers are responsible for the testing for accuracy, and thus approving or condemning, all commercially used weighing and measuring devices.

In the condemning a content of the content of

livery truck meters and gasoline station pump meters are other examples of devices, which he must check. All of these are intimately related to the finan-ces of both the consumer and the businessmen. / The theme of the "Golden Anniversary" Conference was "Welghing and Measuring — Yesterday, Today and Tomor-row."

An added feature was the first National Weights and Measures Exposition which featured ex-
