

## When Decorating Coordinate Colors

Can a room ever contain too many colors?  
 Most rooms do, according to decorator consultants to the Better Floors Council. The principal reason, they believe, is that furnishings are acquired at different times. As a result, the room is not coordinated in an overall plan.  
 The BFC suggests that since the floor, apart from the ceiling, is the largest area of any room, it should provide the basic guideline for the rest of the furnishings. If a

## Remodel Kitchen For Yule

Before year's end millions of American housewives will launch two all-out blitzkriegs upon their personal fortress—the kitchen.  
 These onslaughts will come at Thanksgiving and Christmas when preparing the lavish family feast is as much a grueling chore as it is a rewarding tradition. So why not give the family a pre-holiday gift that everyone can enjoy—by remodeling the kitchen?  
 Modern built-ins, time-saving electrical appliances and, most important, a lot more countertop working space will eliminate much of the kitchen's holiday cooking drudgery and give her more time to enjoy family and friends.  
 Just as you would buy the most modern, up-to-date appliances, so should you install the most modern types of counter surface. That would be tough, durable ceramic tile.  
 Tile comes in more than 250 colors, patterns, sizes and shapes for the ultimate in decorating schemes. It's fireproof, to cooling oven-hot mince or pumpkin pies poses no danger to the tile surface.  
 And knives or broken dishes can't mar scratchproof tile. Likewise cleaning up after the holiday dinner is a snap with a dampened cloth as ceramic tile is stainproof and wards off accidental spills and splatters.

## Add Flavor To Home's Personality

Every home has a distinctive personality that is determined by the people living in it. A younger couple, for example, may choose a modern decor, while their parents might prefer colonial or early American style.  
 Whatever your taste—contemporary, early American or provincial—there is an attractive and durable wall paneling to suit your needs. Marlite plastic-finished hardboard eliminates any need of future redecorating and will remain like new for years with just an occasional damp wiping.  
 The paneling is available in a variety of designer colors and patterns as well as six luxurious woodgrains. It can be installed by the home handyman over old or new walls, solid or furred. Installation instructions are included in every carton of the material.  
 Marlite is heat and moisture resistant. Normal household bumps will not dent this durable paneling. Stains won't be a problem, either, since even grease splashes and messy crayon smears will disappear with a quick swipe of a damp cloth.

**HUMID-AIRE**

See Humid-Aire's patented new operational design that gives you more moisture capacity, and more efficient, dependable, maintenance-free humidification than ever before!

- Guards Against Colds—helps eliminate dry nasal linings that encourage nose and throat bacteria. Adds breathing.
- Self-Cleaning Action—no manual cleaning—problem pods, plates, filters or nozzles to clean—ever!
- Self-Regulating—operates only when furnace fan blows. Automatically maintains natural moisture balance.
- No rust or corrosion—all parts made of rust-proof materials. Lifetime warranty on stainless steel reservoir.
- Economical—costs less than 3¢ a day to operate, while cutting heating bills as much as 15%.
