

OVER 200 ELM TREES have been tagged by the inspector for the Michigan State Department of Agriculture, Bill Croteau (left), in the City of Farmington as part of the City's stepped-up campaign to fight the Dutch Elm Disease. Pictured with Inspector Croteau is Clyde Beany of the City's Department of Public Works, who is tagging the diseased elm, one of several in the City Park marked for removal.

## Seek To Oust

(Continued from Page 1)

The supervisor stated that he and other members of the Township Board also discussed the controversial public statements that had been made by Rev. Eddy. Numerous complaints were registered with the township by citizens, he added.

Hall stated that he had discussed the matter with judges from the county probate court and that they were aware of the situation. A decision from them should be coming any day now, he said.

IF WAS THE township supervisor's feeling as well as the feeling of other board members that since the guidance committee was under the direction of the probate court any action of the dismissal of members should come from there.

Township Treasurer Elise Avery stated during the course of discussion that she had attended some of the Youth Guidance Committee's meetings in past years and felt that they had rendered a very worthwhile service to the community in the past. She made it clear however, that she was equally as disturbed as the others with the statements made by Rev. Eddy as present chairman of that committee.

The citizens at Monday's meeting indicated that they were satisfied with the action of the Township Board in withholding all funds from the Youth Guidance Committee until the matter can be cleared up.

## Catch Youths In Stolen Car

A Brighton and a Livonia youth who stole a car from a home on Joy Road in Livonia Sunday night were apprehended by officers of the Farmington Public Safety Department.

The police spotted the car being driven in an irregular manner on Farmington Road and followed it. At Shiloh and Ross streets they halted the vehicle. The two teenagers jumped out and ran in opposite directions. One in the base of the old McGee Hill but the other boy escaped.

He was picked up Monday morning walking down Farmington Road in the city's business section. The boy apparently remained hidden outside over night somewhere in the area, police said.

## Table Action On Sign Ord.

A proposed amendment to Farmington Township's sign ordinance requiring a license to be obtained before any sign was erected was discussed at a lengthy Monday night July 26, but action tabled on adoption to permit further study and consideration of the proposed wording.

The ordinance presently requires only that licensed sign erectors obtain a bond before putting up a sign. Provisions of the ordinance are presently being abused, it was reported.

Questions raised by Trustee Tom Duke prompted the tabling of the amendment. It was pointed out that it would be unjust to require small businessmen wishing to put up a sign on their property to obtain both a license and a bond to do so.

## Tool Company Request Denied

Mr. Price of the U.S. Tool and Cutter Company, 2205 Orchard Lake Road, appeared at the July 22 meeting of the Township Planning Commission to request permission to use a lot across the road from the company as a parking lot. He stated that the company has outgrown the existing facilities and that parking could be allowed across the road, the manufacturing capacity could be doubled.

## New Water Meters

The purchase of 160 new water meters from the Neptune Co. at a cost of \$30.39 each was authorized by the Farmington Township Board at its regular meeting Monday night, July 26.

The Neptune Co. submitted the lowest bid of two firms bidding.

## Boy Drowns

(Continued from Page 1)

Teppie Gula and Detective Earl Teeple of the township police department arrived at the scene shortly after 8:30 and went into the water in an attempt to locate the body. Div. 1 arrived at the scene shortly after 9:00 and recovered the body in 20 feet of water around 9:45 p.m.

## Nursery Sales Property Gets Bus. Zoning

A public hearing was held at the July 22 meeting of the Township Planning Commission on a request to rezone 68 acres on the east side of Orchard Lake Road between Broad and Whitewood Streets.

When the property was originally zoned residential, the property owner had the footings in for a small building. The building has recently been completed and the owner, Ralph Palant, last month asked that the parcel be rezoned to B-3 general business classification, so that he could use it for nursery stock and flower storage and sales.

CHARLES LEMAN, planning consultant, explained that since the building had been started when the residential zoning went in, the owner has the right to some use of it. He said it would be better to rezone the property to the business classification so that the commission would have some control over the kind of use the building would have. He further stated that the property abuts a business zone to the north and rezoning it would merely extend the business zone one block to the south.

No serious objections were heard from the public, and the commission acted to approve the request. Charles Lorion and Douglas Mann voted against approval.

## J. P.'s Office At Twp. Hall

Byron Walter took over duties as a Farmington Township justice of the peace at the Township Board meeting last night. He has his office set up in a room adjoining the police department offices at the lower level of the Township building.

When the decision was made to allow him the use of an office in the Township Hall the question of what the rent charge would be had to be settled. Trustee Thomas Duke, local builder and developer, was asked to investigate the matter and make a recommendation.

His recommendation made to the Township Board Monday night was a charge of \$3.50 per square foot. No objections were voiced and this charge was unanimously approved.

Supervisor Curt Hall pointed out that having a justice of the peace office right next to the police department since it saves a considerable amount of time for the officers and also helps speed the handling of cases. Members of the police department also have the use of this room during the nighttime and on weekends, he added.

## Finding Fire Station Sites Hard to Obtain

The Township building and grounds committee disclosed in written report read at the regular Township Board meeting Monday night, July 26, that it had been investigating possible sites for a new permanent township fire station but was encountering difficulties in obtaining suitable parcels.

The committee which was appointed by the Township Board recently has as its first objective the obtaining of land for fire stations that will best serve the township.

It was disclosed in the report that a site at 12 Mile and Orchard Lake Road had been considered but that the cost of the land was prohibitive. Another site on 12 Mile was also suggested as a possible site.

The feeling of Township Board members was that even the best site as quoted seemed far too high.

Further investigation of sites has been called for before any action on making a purchase of purchases is taken.

## Mayfair Club Lists Activities

The Mayfair Duplicate Bridge Club will hold a ladies championship game on Friday night, July 30, at regular bridge headquarters, 32905 Northwestern Hwy. at 14 Mile Road, above the North Bowling Lanes. There will be trophies and extra points awarded, and reservations should be made ahead as space is limited.

Regular master point game is Friday night, August 6. Also a game is held every Tuesday evening at 7:45 p.m. at the same address. Master point night is held every Tuesday night of the month. For further information, call MA. 6-2109.

THE TEN FINALISTS in the "Miss Farmington Founders' Festival" beauty queen contest as selected in preliminary judging at the Botsford Inn on Tuesday evening were: From left to right — Nancy Gardner, Miss Bon-Ton Shoppe; Nancy Rose, Miss Botsford Inn; Karen Jacobson, Miss B.P.W. Club; Vayle Lorion, Miss Historical Society; and Dee Lawton, Miss Farmington Enterprise. Second row, left to right — June Lorimer, Miss Farmington Center; Patricia Prucha, Miss Industrial Park; Rosemary Dunlison, Miss Paris Room; Deborah Saunders, Miss Town & Country Dodge; and Kathleen McLaughlin, Miss White House Valet. ## Reject Bids on FHS Addition Founders' Festival

At a bid opening on July 26, for the addition to Farmington High School came in \$40,000 to \$47,000 over the \$70,000 budget which had been established for the project.

Architect Linn Smith stated that the reason for the high bids was probably due to the fact that the construction job was a comparatively small one.

Vernon Fisher, board trustee, said that he had rejected bids after the contractors and sub-contractors had given their time in preparing them, but he felt that lower bids could be obtained if the addition were tied in with some future construction work.

Fisher's motion to reject the bids with regrets was unanimously approved by other board members.

## Public Letterbox

(Following is a copy of a letter written to the Oakland Co. Dept. of Public Works and also presented to the Township Board.)

Dear Sir:

With the enclosure of payment of water bills, I would like to enter a strong protest for charges other than water.

Sec. 36, Farmington Twp. Water Supply System, went into operation in the summer of 1941, on a Revenue Bond issue, Mains and laterals, approved by the Detroit City Water Board.

The Mains extended down Grand River, and across on Inkster Rd.

In the Forties our water pressure was inadequate. The Detroit City Water Board installed a pumping station at Six Mile and Inkster, and since that date we have had all the pressure needed.

The debt on Mains and Laterals was retired, and only in 1958 did we receive a debit water bill. The system built up a substantial reserve. Meters were paid for, all costs defrayed, including help, office supplies and equipment, by the system.

SECTION 36 is not to be confused with the old water line on St. Francis and on Eight Mile Road, which was constructed from F'd & R's Funds, by the W.P.A. for the benefit of the Clarenceville School District. That debt has been paid in full.

Therefore, it seems ethical that a system which has had adequate pressure, and which obligated itself from 1941 to 1958, and a system which had been paid for by the Federal Government, should not be obliged to enter into further debt for new extensions.

We are not against progress or expansion, because after all, this little community of working people has the courage to start progress in the township in very lean years. Start it ALL ALONE.

Further, I am sure that the citizens of Farmington Twp. are fair-minded, and realize that if we are subject to re-assessment, that they too may some day be obliged to enter into a new debt for still further expansion.

Since I realize that the distribution of this debt originated in the Township, I am sending a copy of this letter to the Farmington Township Board.

Very truly yours,  
Mrs. Clayton Goers

## New Sewer Projects

(Continued from Page 1)

During general discussion, it was pointed out by Floyd Cairns, and Supervisor Hall that the bid for the Meadowbrook Hills special assessment project had come in substantially below the cost estimate figure. The savings realized from the lower bids for the water improvement project would offset the added cost necessary for the sewer improvement, Hall estimated.

In separate action passed resolutions authorizing a go ahead in the sale of bonds for special assessment sewer improvements planned for the Park Hill and Kimbenton Park subdivision areas.

### CARD OF THANKS

We wish to extend our heartfelt thanks to all those who expressed their sympathy in so many thoughtful ways during our recent bereavement. We especially want to thank Dr. Robert Douglas and Mr. and Mrs. Howard Trayer who did so much for us. We wish it were possible to thank each of you personally.

The Family of Dan Lowe
