Hare Explains Motor Vehicle Accident Claims Fund Plan

"Have you taken a look at your automobile insurance policy lately . . . a real close look?"

Most persons who have insurance on their cars have both collision and liability insurance. But there are some motorists who think they have liability coverage and do not. To be on the safe side, Secretary of State James M. Hare is urging Michigan's 4-million motor vehicle owners to get their policies out and check them thoroughly if they are not absolutely sure.

"UNLESS PERSONS have the liability coverage . . . public liability and property damage (PL and PD) . . . they may have to pay the long shot of \$25 when they buy license plates," Hare said.

"And unless they extend their coverage, they will have to be considered uninsured insofar as the Motor Vehicle Accident Claims Fund goes."

"On the other hand, insured vehicle owners pay only \$1 in to the Fund," said Hare.

How does an insured owner qualify for the low \$1 fee?

MOST COMPANIES will be furnishing their liability insurers with a Certificate of Insurance, which serves as proof that he does have liability insurance coverage. This holds for all Michigan based companies, says Hare.

"There are some out-of-state insurance carriers that we're not exactly sure of," Hare said. "We're hopeful they will be able to furnish their customers with Certificates."

"However, some persons may have to bring in their policies or other valid proof that they paid their insurance," Hare said.

ACCORDING TO HARE, the insurance companies, which will be issuing Certificates will have them out in time for the November 1 opening of license plate sales.

He suggests that all insured motorists who do not receive a Certificate contact their agents or salesmen to see if they can get it or some other proof that they are insured.

What about persons who make false claims of insurance?

"This is a misdemeanor," Hare said, "subject to both fine, possible prison sentence, and the loss of driving privilege."

Enlists In U.S. Coast Guard
