## A Gas Dryer does much more than just replace the clothesline

IN ADDITION TO ENDING LIFTING, LUGGING AND HANGING CLOTHES ON WASHDAY A WORK-SAVING GAS DRYER WILL DO ALL THESE EXTRA JOBS

- VALET SERVICE — wrinkles can be removed from corduroy, velveteen or wool garments by placing them in dryer for short tumbling period with damp sponges or bath towels. Place sponges or towel in dryer before putting in clothing to build up steam. Use medium heat setting. Bath towels leave lint on dark cottons, so damp, colorfast sponges are best. There must be moisture to release wrinkles and prevent shrinkage. Remove garments before completely dry and hang on wooden or plastic hangers until completely dry.
- FLUFFING OR DUSTING draperies, chenille bedspreads or other articles that need airing. Place in dryer on "no heat" setting and allow to tumble for 5-10 minutes.
- REMOVING MOTHBALL ODORS from clothes that have been stored. Use "no heat" setting and short tumbling time.
- BATHING SUITS & SNOWSUITS can be dried in pre-heated dryer with bath towels (which have been in dryer during preheating). Dark towels are advisable with dark fabrics.
