

# Buying or Selling a HOME? ASK our Computer!

**Let Our  
Computer Help  
Sell Your Home**

Times change, and so do we. That's why we are the first to offer you this unique way of selling your home. Our new computer not only gets the information about your home to the public fast, but it has several other advantages for you, such as only interested prospects coming thru your home... They have selected just the type of home they want... the computer says yours... This way you aren't bothered with a constant parade of people coming thru your home that are in the market for something completely different. When they come to inspect your home they are looking for a home like yours.

**Let Our  
Computer Help  
You Find a Home**

No more looking through books and pictures and addresses at homes that don't come near what you are looking for. With our new ask computer you just specify your special requirements along with price range and location, the operator presses the correct buttons, and only the houses that meet your requirements, are selected. Think of the time saved by this new ask computer. In seconds you will have all the houses available that meet your requirements. Saves miles, saves bother, and most important, saves time.
