Ladies — if you can make toast,  
you can make wonderful movies!

May sound a little silly, but it's the truth. How do you make toast? You drop in the bread, plug the toaster in, and that's all. How do you make movies today? You drop a KODAK Movie Cartridge into a new KODAK INSTAMATIC Movie Camera, press the button, and you're making movies!

Once the camera's loaded, you're always ready for any action that comes along, because battery power drives the film. You never have to stop and wind. Or stop to flip the film over at the halfway point. You can shoot the full 50 feet—non-stop if you wish.

And wait till you see the results. They're the best home movies you've ever put on a screen. Brighter, sharper, more colorful. That's because the new Super 8 film format gives you 50% bigger images on the film. And, of course, bigger images on the film mean better movies on your screen.

Come see us soon. We have three new KODAK INSTAMATIC Movie Cameras to show you. All beauties. And starting from as little as \$46.50. Choose any one of them—suddenly you're a movie-maker.
