

# Directors Pick Investigating Chairman As New Leader

With one exception, the People's Community Hospital Authority Board of Directors elected a new slate of officers for the coming year following the decision of three officers not to seek re-election.

William Tullis, Garden City delegate, was re-elected secretary by acclamation. He was appointed secretary of the board following the dismissal of former executive director Kenneth V. Grenore who had served as secretary also.

Tullis works for Burroughs Corporation of Plymouth and was chairman of the public relations and education committee of the PCCHA before being appointed director.

The Garden City delegate had declined nomination for Treasurer saying he received just about enough heartaches during the past month a man could take. Tullis is a co-defendant in a civil suit against PCCHA asked for by Attorney General Frank Kelley in connection with a refinancing plan to transfer assets of the PCCHA to a private, non-profit corporation.

Declining to be nominated for the office they held during the past year were: Chairman Earl McNamara, of Trenton; Vice-chairman Gordon Gable, of Ypsilanti Township; and Treasurer Frank Rodwell of Allen Park.

Elected as chairman was Donald S. Schenck, of Dearborn Heights. Gable allowed his name to remain in the ballot for chairman but after being defeated declined running for any other position. Pizimenti received 13 votes and Gable and Bullinger eight.

Ralph P. Turo, Nankin delegate, was elected vice-chairman by one vote. Robert White, Lincoln Park, and Irving Brewer, mayor of Rockwood, tied for second with nine votes.

Turo is a member of the public relations committee and is a candidate for Westland City Council. He was mentioned in Kelley's report on the PCCHA for conflict of interest after supplying the Authority with some \$300 worth of beverages from his party store.

## Mayflower VFW Post Membership Up to 222

With the acceptance of three new members, the 1966 membership drive of Mayflower Post 6955, VFW, has now reached a total of 222.

The newest members are:

Donald Council, John Garrison and George Burrows. All past commanders of the Post are urged to attend a meeting tonight (Wednesday, March 2) at the Post to start planning for the 20th Anniversary Dinner on April 16 with Past Commander Harvey Jones as chairman.

Discussions are still underway in regard to the proposed improvements to the Post Home. All equipment and fixtures are the No. 1 items on the agenda. Mayflower members are making plans for the nomination of officers at the annual election.

The Post recently voted to distribute patriotism kits to all schools in the Plymouth School district. The kits illustrate the history of the flag and include copies of important historical documents.

Boy Scout Troop 852, which is sponsored by the Post, will hold its annual fund raising event, a pancake supper, on Monday March 28 in the Post Home.

The next big social event is listed for March 19—the annual St. Patrick's Dance. Gerry Oles is chairman of the "Cookies for Vietnam" project. The committee hopes to collect a good supply of cookies and ship them by air to the troops in Vietnam. Gerry may be reached at 453-1339 for additional details.

## Local Lawmakers Join City Study

Three state representatives from The Observer coverage area will tackle the mounting problems of cities, counties and townships.

House Speaker Joseph J. Kowalski announced their appointment, along with 13 other experienced Democratic lawmakers, to a Task Force on Local Government.

Those named for here are John Bennett, of Redford Township, James Tierney of Garden City and Richard A. Young of Dearborn Heights whose 33rd District includes portions of Livonia and Na-

shville Township. "This experience will provide the Task Force with exactly the know-how to make it an active, producing organization," Kowalski said. "The members' hard-earned knowledge will be available. It couldn't be put to better use?"

Kowalski last month named a special, bi-partisan Task Force on Legislative Reform, the first Task Force and one keyed to producing recommendations on stream-line structure and procedures of the Michigan Legislature.

The Task Force will be headed by Rep. Stanley J. Davis, a legislator who has been a four-term Grand Rapids mayor, a city commissioner and chairman of the Kent County Board of Supervisors.

"Our aim will be to propose specific legislation for the 1967 year," Davis said, "not in any way by-passing standing House committees dealing with local government problems but rather, assisting those committees by offering proposals which will have been developed by legislators themselves."

First target of the Task Force will be problems of cities with sessions to be held in affected communities in the state. Investigation at county and township level is scheduled for next year.

## Plymouth Student Attends Conference On Eastern Campus

KALAMAZOO—Two Kalamazoo College sophomores spent Feb. 25-27 at Andover Newton Theological School near Boston, Mass., attending an annual Conference on the Christian Ministry for College Men.

They are Robert Staff, of Plymouth, and Bruce Williamson, of Columbus, O. Upwards of 100 men from 28 states and Canada attended the three-day meet. Kalamazoo's representatives were among three chosen from Michigan to attend.

## Greene Motors Donates New Engine to Bentley

Bentley High School, Motor Mechanics Laboratory, last week received a new Volkswagen engine to be used for study purposes. It was a gift of Greene Motors, Inc., of Livonia and Import Motors, Ltd., Volkswagen Distributor.

Jack Constock, principal of Bentley High School; Tom Handy, Motor Mechanics teacher, and Arnie Fairman, Coordinator of Industrial and Vocational Education accepted it.

It was made by Harvey Greene, Manager, and Avery Greene, Assistant Manager, of Greene Motors, Volkswagen. Present, representing Import Motors, were William Townsend, District Service Manager, and Stanley Zimmerman, Area Service Representative.

The Motor Mechanics course at Bentley High School is a 2½ year program which includes engine analysis, automobile chassis and electrical work and trouble shooting. A total of 256 students are presently enrolled in the course. Most of the graduates take jobs in the automotive field.

In making the presentation, Greene said, "a Volkswagen engine is a precision instrument. Through its use in this laboratory we believe that students will have the opportunity to develop the eye-mind-hand coordination which will be of great practical use to them in the future. It can mean special training for skilled. And it can also inspire young men to apply themselves to a chosen field with increased analytical ability."

Principal Constock accepted for the school saying, "We are most grateful to Greene Motors and Import Motors for the gift of this new Volkswagen engine. And I am sure that it will serve many students in developing their aptitudes. Thank you very much."
