

### BENTLEY A THREAT:

## Pick Trenton To Win Swim

Trenton high's unbeaten swimmers will be heavily favored to walk away with the Suburban Six League title which will be decided Friday and Saturday at Plymouth High.

## Tigers Aid Amateur Baseball

Amateur baseball organizations wishing to participate in the financial benefits of the Tigers' exhibition game with the St. Louis Cardinals at Tiger Stadium May 18 can start making arrangements now.

Tickets for the game, played for the support of Michigan baseball throughout the Michigan area, now are going out to the officials of the Recreation Association of Michigan who will handle the distribution.

Any amateur baseball organization in the Michigan area can obtain tickets, sell them and retain all the receipts for the use of the team, league or other group. The more tickets they sell, the more money they can raise for diamonds, equipment and other uses.

## County Hikes Pay For Pharmacists

Complaints about pharmacy services at Wayne County General Hospital should be leveling off to normal according to hospital superintendent Dr. H. J. Wells.

The hospital received a number of complaints a month ago when area residents were forced to stand in line for hours to receive prescriptions at the outpatient pharmacy at Wayne County Hospital.

## Family Pair Stars in Ice Capades

From a small frozen pond in Czechoslovakia to the championship competition areas of the world, that's the story of Otto and Maria Jelinek, brother-sister stars of the Ice Capades of 1966, at Olympia Stadium.

Otto and Maria began skating together when he was just eight and she three. Their eyes were set on active competition when the Jelinek parents decided to flee the communist regime controlling Czechoslovakia.

The high point of their amateur career came in 1962 when they returned to their homeland — under special guarantee by the Czechoslovakian government that they would be allowed to leave safely — to compete for the Païra Championship.

HENRY I. IVERSEN was installed as Master Councilor of the Farmington Chapter of the Order of DeMolay on Feb. 4. Installed with him were: William F. Klett, senior councilor, and John S. Dunsmore, junior councilor.

# Edison Sends Redford Twp. Engineer on Iran Mission

Allen E. Price, of Redford Township, underground standards engineer and supervisor of the underground standards section of the Edison Electric Company, left this week on assignment in Iran, under the sponsorship of the U. S. State Department's Agency for International Development (AID) program. He will be gone this time, for one month.

Price stated that he will be "furnishing technical guidance for economic growth and development of Iran. Basic to that growth and development," he continued, "is the energy capacity of the country."

## Redford Duo Fires 1,282 in Pin Doubles

A Redford Township husband and wife team led the firing in the third weekend of the 1966-67 season. Allen Price and Harold Zimes, Dearborn, weren't far back over the weekend, coming in with a 1266 that practically guarantees them a piece of the prize money.

"We have plenty of choice times and dates this early in the tournament," he said. "But the reason will become more acute as we get closer to the end. We feel that all bowlers planning on entering should get their names in now and get the times and dates they want. It may not be possible if they delay much longer."

It was the team of Doris and Ray Pomaville, 1534 Mary Arthur, Redford Township that moved to the front in last weekend's firings, shooting the fat 1282 with the aid of a 126 pin handicap.

Ray, who carries a 194 average in the Senior House League at Merril-Bowl and a 193 in the Senior House League at Bellaire Lanes, was the big gunner, shooting a 257 in his middle game while collecting 617 pins.

He started with 172 in the opener, broke loose with the 267 and then settled down to 179 in the finale.

Meanwhile, his wife, who carries a 145 average, had a big 172 in the opener, broke loose with the 267 and then settled down to 179 in the finale.

He needs 513 more home runs to replace Greenberg as the most productive slugger in Tiger history. He needs 24 RBI to pass Hellmann and rank second to Cobb.

He needs 744 runs scored to pass Gehring and again rank second to Cobb. He needs 270 games played to pass Hellmann and 395 to pass Crawford for third place, behind Cobb and Gehring.

He needs 513 hits to pass Crawford and 551 to pass Hellmann and again trail only Cobb and Gehring.

Price and his wife, the former Edna J. Dietrich, reside at 2648 Dover in Redford Township. He was a 1933 graduate of Southwestern High School, received his engineering degree from Lawrence Institute of Technology, and completed extension courses in nuclear physics at the University of Michigan.

Price has co-authored several professional documents, statistics; and instruct the survey staff assistants and their Iranian counterparts in the techniques of analyzing specific problems in the production, utilization, marketing, pricing and taxation of energy forms.

Price stated that this is the first part of a two-part program. The second part will embrace the actual establishment and construction of energy producing facilities. It will be under the direction of Dick Hart, coordinator of overseas studies, Detroit Edison Company, who will go to Iran in November.

Associated with the Edison Company since 1936, Price has performed similar duties on several other occasions in far eastern countries under the AID program.

He has also been involved in related activities with the Michigan Energy Study Group, under the guidance of that group's Steering Committee Chairman, Walker L. Coker, chairman of the board of the Detroit Edison Company. The results of that study will be released in May in a book titled "Michigan Energy and Economic Projections," of which Price is co-author along with fifteen other prominent energy specialists in the state.
