

New Book Offers Many Ideas

Perhaps you're more interested in just what's going on in the decorating world. What is the Mediterranean Look and is it here to stay? What new furniture and fabric trends are going to be popular this year? And, of course, 1001's specialty

is the page upon page of window treatments — dreamy, exciting, unusual, sometimes elegant, sometimes simple.

Edition 23 is no exception. There must be 50 unusual window ideas in color alone. From the contemporary picture window with a wide jute used in vertical bands to the formal window treatment which is a combination of a drapery and swag and perfect for an English-inspired setting.

You'll find this great new edition of 1001 Decorating Ideas at newsstands, wherever drapery fabrics are sold or by sending 50 cents in coin to "1001", 27 West 23 Street, New York, N.Y.

Planning Is Important To Women in Home

What do women want in a home? A national survey brings out some mighty interesting facts which should be a guide line for house builders and architects.

First, they want homes with basements. You should hear the complaints of the ladies who cuss out the slab floors as hard on their feet.

They want good neighborhood planning with curved streets, distance between homes, better landscaping.

They want three entrances: front, back and from garage. They want a full garage with plenty of storage space, not a carport. They want a big kitchen, which is the most lived in room in the house.

They want a separate dining room which could seat 12 or more. And they want this room designed with concealed built-ins and wood paneled walls.

They want a pantry, showing the need for additional storage. They want bigger bedrooms with extra emphasis on size in the master bedroom. They want lots of windows all over the house.

High on the list of wants is outdoor living space, with a majority favoring decks. Wood deck seems to be in the most popular because they are inexpensive, easy to keep clean, cool in the summer and a handsome addition to most homes.

These are what the ladies are demanding and the little woman generally gets her way.

An oriental garden with rare tree ponies will be on display at the Michigan State Fairgrounds during the Flower and Garden Show of Michigan. The show opens March 26 and runs through April 3.

Glass Company Taps Livonian

William Kimball, of Livonia, has been named regional sales manager for the Amerasia Glass Corp., according to an announcement made by Richard R. Miller, president of the architectural laminated glass manufacturing firm.

Kimball will be responsible for Amerasia sales in Michigan, Ohio, Tennessee, Kentucky and Southern Indiana.

Kimball attended Wayne State University and North Carolina State University, and is a veteran of the United States Air Force.

He lives with his wife, Ruth, and two sons, at 17514 Redwood Drive.

Men who lack faith in their ability accomplish very little.

Wild flowers will join tulips and roses and other domestic varieties at the Flower and Garden Show of Michigan, March 26 through April 3 at the Michigan State Fairgrounds.
