

**THE TEACHERS SPEAK**

**Why Teaching As a Career?**

By FRANK KOVACICH  
 Director, Department of Public Relations

Why should your son or daughter become a member of the teaching profession? Answers to this kind of question can be found in a large number of newspaper articles, magazines, and pamphlets.

The National Education Association strongly urges prospective candidates to consider the many merits and assets of being an educator, especially during its annual Teaching Career Month in April.

However, few written articles stress the fact that people in general do not encourage youngsters to pick teaching for their life's work. Few teenage boys, for example, will admit to a desire to attend college for teacher training. This may be due to a weak financial image in comparison with other occupations. Why, then, do such a vast number of students enter teaching after the completion of college?

**To Join In Safety Drive**

Michigan State Police officers will participate in the voluntary motor vehicle safety inspection program to be conducted again this spring in many communities. Col. Fredrick E. Davids, director, announced.

The program is being held for the 12th year in a row. In 1965 there were over 4,200 such clinics in the 30 states not having compulsory inspection, with 168 of them in Michigan.

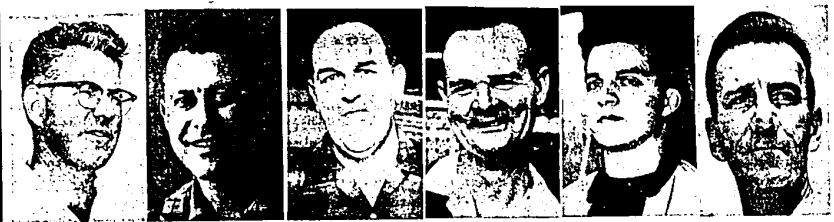

Program coordinator for Michigan is J. Carl Powell Jr., on loan from the Buick Division of General Motors, who will have offices with the State Safety Commission, a State Police division, in the Stevens T. Mason building, Lansing.
