Follow These Tips To Preserve Health

It isn't absolutely necessary for executives to have heart disease, ulcers and strokes, ailments commonly associated with American businessmen who reach the management level.

Further, these ailments are by no means limited to executives. They can affect almost any one.

A few suggestions offered by the American Medical Association to help executives preserve their health also can be readily applied to most Americans, regardless of level of employment.

Watch your weight. Strenuous diets usually aren't necessary. Just eat less.

Exercise. Golf is fine, if you enjoy it. But if you're one of the many who lose their tempers and get upset over every missed stroke, regular walks will serve just as well as golf, probably better.

Take vacations. Real vacations, not just an occasional day of two. And plan your vacation so that there is time to relax, and unwind.

Smoke less. Better still, quit smoking altogether, if you can.

There is much debate about the effect of tobacco on heart, but there is no argument on the premise that it doesn't do anything good for you.

Cut down on drinking. Two cocktails before dinner may be one too many. One might be too many for some people.

Get plenty of sleep. And try to sleep without the use of drugs, if at all possible.

Put business worries out of your mind when you leave the office. This sometimes is easier said than done. Perhaps you will need to get active in something else, such as the affairs of your church, to get your mind off your job.

Commonwealth Boosts Interest Rate to 5 Pct.

Bank of the Commonwealth Friday became the first Detroit financial institution to increase its rate on time deposits to 5 per cent. This new higher guaranteed bank rate will be paid on one year savings certificates of deposit.

George W. Miller, president of the Commonwealth, said the new 5 per cent "time" savings deposit rate will be effective immediately. The new rate will be paid on any amount in excess of \$100. All certificates are insured by Federal Deposit Insurance Corporation and will be available at all 37 offices of the Commonwealth or may be ordered by telephone or by mail.

Depositors will receive savings certificates which may be redeemed at any time on 30 day notice. After 30 days, certificates redeemed before the end of the one year period will receive the bank's regular 4 per cent rate from the date of withdrawal.

"Bank of the Commonwealth's decision to increase the return to savers by offering the new 5 per cent rate was based on a belief in a strong business outlook for Detroit and Michigan in 1966," Miller said.

"This move is also a continuation of our policy of giving the public the maximum in banking rewards, whether in terms of lowered costs of services or in the maximum rate of return on deposits."

"Current money market circumstances make it possible at this time to pass on to our customers a greater return on their savings deposits."

In December, 1964, the Commonwealth became the first Detroit bank to raise interest rates to the legal maximum of 4 per cent on book savings accounts, and in December, 1965, led the way among Detroit banks in payment of 4 1/2 per cent on time deposits.

These programs, together with the Commonwealth's new C-194 free checking account service, have significantly increased the bank's service to customers in the Detroit area, Miller said.

Parke-Davis Celebrates 100th Birthday in '66

Parke, Davis & Company, one of the nation's oldest and largest drug companies, observes its 100th birthday during 1966.

"We've won many battles but not the war," said Board Chairman Harry J. Loynd, commenting on his firm's part in the world-wide war against mankind's common enemy, disease.

"Our company in the past 100 years has made significant contributions both in the development of new drugs and through the investment of our scientific know-how in the bank of knowledge about illness and health, all of which will aid in the better understanding of disease and its causes."

Loynd, the seventh chief executive officer to head the world-wide pharmaceutical firm since its founding, acknowledged the importance of Parke-Davis' achieving the centennial milestone.

"Notable achievements have been realized during our corporate life. Man's lifespan has been extended, infant mortality rates have dropped, cholera and cholera are no longer serious problems; vaccines and antibiotics are relatively new and effective weapons in the health arsenal, along with central nervous system drugs."

Lengthy reflections on past achievements are wasteful, in Loynd's opinion, however. "To have reached the centennial milestone is laudable and certainly attests, in our free and competitive economy, to the soundness of the principles upon which Parke-Davis was founded."

"But, the combined pressure of competition and the urgency illness demands dictate that our attention be focused on today and on tomorrow."

He declined to comment on Parke-Davis' second century, except to add, "We'll take it day at a time and do our best."

Pierson PTA

Pierson PTA held its election of officers for the school year 1966-67 and named Edwin Manuy, president; Arthur Savoie, 2nd vice-president; Mary Ann Coopes, mother vice-president; Alex Sax, teacher vice-president; Elaine Parent, recording secretary; Jean Gunder, corresponding secretary; and Teresa Carpio, treasurer.

The next meeting will be held the first Tuesday in May.

Watching for school signs is a good habit—cultivate it.

Tickets may be reserved by calling 561-0200.

Exo to Speak in Farmington

Healing and prayer will be explored in a public Christian Science lecture on Sunday, at 3 p.m. in Farmington Junior High, 33000 Thomas Street.

Arnold H. Exo, C.S.B. of Evanston, Ill., will be the speaker, under the sponsorship of First Church Christ, Scientist of Farmington.

Exo is currently on tour of the North American continent as a member of The Christian Science Board of Lecturers. He left a successful career in sales and advertising work some years ago to take up the full-time practice of Christian Science. He was a Wartime Minister to the armed services during World War II, and has since become an authorized teacher of the religion.

The title of his lecture is "How Christian Science Makes the Healing Christ Available."
