

# College Placement Service Helps Students Get Jobs

The economic boom has resulted in an ever-increasing demand for employment of Schoolcraft College students. The College Placement Service has found that during the last 10 months, over 400 area employers including Detroit and the surrounding communities, have made inquiries seeking Schoolcraft students for part-time employment.

During this period, over 500 students have been referred to employers. Evidence has shown that more than 300 of these students have found employment, which acts as a means whereby they can help defray the expenses of an education.

These students have been employed in many types of positions from manual labor to highly skilled technical and responsible business positions. Indications are that many

career positions are available for the two-year graduate. Some 40 inquiries have been received from business, industry, and government looking to the college for trained personnel.

A permanent placement file is available to graduates of the College seeking career opportunities, and in the future employers will be recruiting graduates on campus.

Schoolcraft has become a source for the employment of a substantial number of its students. Viewing student employment on campus as an important part of its overall student financial aid program, the College has employed 104 students since July, 1965, with a total payroll of over \$50,000.

The students have been employed under three different programs: College Work-Study and Vocational Work-Study, both supported by government

funds, and regular student employment.

Under College Work-Study, students who must work in order to attend college are employed by the College and selected non-profit off-campus agencies in jobs related to their vocational goals. On campus, students work as laboratory assistants, library assistants, clerks, secretaries, maintenance and security men, and as athletic and recreation aides.

The Placement Service expects no decrease in the 6-manual placed upon it for student employment. With an ever-increasing number of graduates and a larger student enrollment, the Placement Service anticipates a larger role in providing a source for employers of trained personnel and in adding students wishing employment.

Those wishing further information should contact Rusty Boggs or John Casale, in the office of Student Affairs.

## Candidates Will Speak to YR's

The Redford-Livonia Young Republican Club will sponsor a candidate night for the 1966 Congressional District candidates for Congress, June 9 at 8 p.m. at the 19th District Wayne Republican Headquarters at 20325 Middlebelt Rd. in Livonia.

David Merriam, Chairman of the YR's, stated "The three announced candidates Dick Kuba, Jack McDonald, and Larry Vandermolen, have been invited and will outline their backgrounds, programs and tell why they think they can beat the incumbent Congressman. I would also like to invite all Republicans from those from outside the Redford-Livonia area, such as Farmington and Northville, to attend our meeting and join our club."

Well-arranged time is the mark of a well-arranged mind.
