## Billie Farnum To Speak at Temple Beth Am Sept. 10

On Saturday, Sept. 10, Temple Beth Am will conduct its annual Selichot or Penitential Service. The word "Selichot" means forgiveness, and by way of preparation for this sacred season it has been customary for Jews to participate in special services on the Saturday evening at midnight preceding Rosh Hashanah.

Reform Judaism recognizes the value of a "warm-up" period and the desirability of setting the mood for a profound religious experience; consequently, during the past few years more and more reform congregations throughout the nation have reconstituted this meaningful tradition.

The evening will commence at 9:30 p.m. with a Havdalah Service. Used in the service are the symbols of wine, a twisted candle and a glass of water.

**Tumble Out Lint**  
 When pressing garments made of dark materials, it's a great help if you first tumble the garment in the dryer for a few moments. This is a far easier way of removing lint than brushing.

## HOW A MAN WITH SHORT LEGS REVOLUTIONIZED A LONG-LEGGED SPORT

The Odd Man On Horseback. Standard in athletics comes to many. It is only a select few, however, who possess individual brilliance and flair for the unusual, set styles which help change the pattern of sports.

"A Monkey On A Stick" is the apt and colorful phrase used to describe the basic riding style of jockeys in the United States. It is a style started 70 years ago because a young man with great talent had abnormally short legs. The young man was Ted Sloan, now a member of The Jockeys' Hall of Fame.

If you visit the Detroit Race Course—and we race daily except Sundays, from now through November 5—you will see the widespread application of the technique Sloan brought to Thoroughbred racing.

"Monkey On A Stick" is the style derived from the use of extremely short stirrups and the marked crouch which puts the rider virtually on his horse's neck.

From Sloan's day to the present, there's been only one major refinement in riding styles. The great Eddie Arcaro is credited with it. Arcaro introduced the "acey-deucey" seat, whereby the jockey uses an extremely short outside stirrup and has his inside stirrup approximately two to two and one-half inches longer.

William Kelly, an old-time rider and one of the most respected officials in racing, is Paddock Judge at the Detroit Race Course. He is an authority on riding techniques.

"In my day," Kelly relates, "my style was more like that of today's steeplechase riders. A jockey might drop his inside stirrup a notch, but the difference never was marked until Arcaro came along. Now, you see almost every rider with his right stirrup so short his knee almost touches his chin.

What's the reason for the technique? "It is a sound one," Kelly says. "Watch a horse as he goes into a turn. Notice how he leans toward the rail. With the lower inside stirrup the jockey is able to shift his body in the same direction and achieve greater balance. That's the value of the 'acey-deucey'... balance."

Larry Snyder, the youthful riding star who is a top contender for the DRC jockey championship and ranks seventh in the national title race, daily gives excellent displays of the patterns pioneered by Sloan and Arcaro.

"The style of each rider may vary, but the most important thing is to be comfortable in the saddle," Snyder says.

I believe the more fans know about Thoroughbred racing and the people in it, the greater enjoyment they will derive from it. Watching the riding techniques at the DRC of talented stars like Snyder, Bob Gallimore, Ronnie Campbell, Tommy Barrow, Donald Holmes, Eddie Truman, Dick Lawless, Jack Friesman, Joe Lopez and Earl Knapp will put a new spin into the racing pleasure.

Your pleasure is our constant objective. At the Detroit Race Course, we have a magnificent new \$3,000,000 Clubhouse with two beautiful Dining Terraces which offer the finest in food and beverages.
