HOUSE HUNTING

Can Be Fun ...

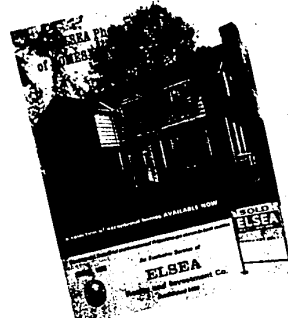

Especially when YOU use
Gordon Williamson's All-
New ASK Computer, the
most Up-to-Date method
of Buying and Selling
homes.

MORE THAN 3,000 HOME LISTINGS ARE PROGRAMMED IN
THIS MARVEL OF THE MACHINE AGE.

The ASK computer makes home buying easier than shopping at
the supermarket. It has complete information on some 3,000
homes (our own and those on the multi-list) which home seekers
may choose from. All you have to do is describe the home you want
as to features, location (even the street if desired) and price
range. . . . ASK will do the rest. Within minutes the computer will
scan through some 3,000 possible listings and those homes match-
ing your specifications will be sorted. If the home of your choice
is for sale Ask will find it!

**ONE LOOK *is worth a*
THOUSAND WORDS!**

And it would take more than a thousand words to describe fully how this
computer can work for you. Take time and drive out today to see for yourself.

Would you like
your home listed
in this book?

All it takes is a call
to have your home featured
in this Exclusive Home Photo
Album
